

GIMME DAT END TIMES RELIGION – PART XXIV

We've been investigating the use of technology by the New Age / Occult forces to bring forth the New Age Christ. In this segment we'll look at some very interesting things that their spirit guides are revealing to them concerning the coming rapture of the Church.

RAPTURE STORIES

“The coming of the *lawless one* is according to the working of Satan, with all power, signs, and lying wonders”
(2Thessalonians 2:9)

Though a great many Catholics may not have heard of it and a significant number of other Christians may doubt, - the Rapture is a concept that is well accepted in New Age circles. The problem there, - is that the spirit guides seem to be spreading a bit of disinformation about its true nature. Bill Lambert, for instance, of the House of Theosophy, who's 1991 conference we've been quoting; - talks of some form of 'evacuation' of a significant portion of the earth's population around the time of the rise of the New Age Messiah, or Lord Matriya. Lambert is not alone in insisting that the coming of the New Age Christ will be accompanied by the spiriting away of many millions of human beings. He described three groups of people on earth when this messiah comes: (1) Those that would embrace the New Order (2) Those not sure (3) Those that could never accept the New Order. These last will, in his words, "elect to leave for another room". They will "leave this dimension". Thus his spirit guides were telling him. This will all happen, says he, - shortly after the appearance of the Antichrist.¹

This is a common theme among New Age writers. UN diplomat and confirmed New Ager Robert Muller weighed in on the matter, saying that those unable to accept the coming 'paradigm shift', will have themselves, "...parked in a special corral of the universe for having been retarding forces, true aberrations in the evolution and ascent of humanity".² [*I can just feel the love there.*] Barbara Marx Hubbard, calls it a "...time of selection [when] ...self-centered humanity will become extinct".³ Those resisting the New Christ will, according to another New Age conference, be removed from this earthly dimension - so the Christ will not have to deal with their 'collective aura' and negative energy. Ruth Montgomery, through her demonically inspired 'automatic writing', claims "millions will pass into the spirit".⁴ The Guiding Spirits of the New Age know something is up, and are preparing their adherents for the disappearance of millions of Christians they know is coming. 1Thessalonians 4:16-17 clearly lays out what is coming. **“For the Lord Himself will descend from heaven with a shout, with the voice of an archangel, and with the trumpet of God. And the dead in Christ will rise first. Then we who are alive and remain shall be caught up together with them in the clouds to meet the Lord in the air. And thus we shall always be with the Lord”**

The Why Of It

So while some in the New Age Movement are waiting for those pesky Christians to be spiritually removed, ("those who will never accept" the christ), - others of a more scientific or occultic bent are eager to cooperate in creating the New Age. Harkening all the way back to our discussions on Genesis 6: The rebellion of that age was a combination of the human and the demonic. The Nephilim were the offspring of the **“daughters of men”** and the **“sons of god”**, - or Satan's host of Fallen Angels. So too, will the culmination of this rebellion be in one sense a joint venture between the Devil and Man. Revelation tells us an *Unholy Trinity* will rule the earth in that day. Just as God is Father, Son and Holy Spirit; - Satan will set up an evil imitative counterpart of Beast, Antichrist and False Prophet; - the demonic and the human.

Remember that the New Age goal is to destroy True Christianity and replace it with a One World Religion. Paul warns us that indeed a great apostasy will occur first, implying that that is what will create the conditions necessary for the rise of the Antichrist. **“That day shall not come, except there come a falling away first, and that man of sin be revealed, the son of perdition”**. (Second Thessalonians 2:3) Any event that made the Christian community of genuine believers, fear that they had been "left behind", would surely shake the faith of many. Despair and confusion would reign. In addition, a "False

Rapture” might lend credence to Liberal / non-literal Christianity with its ecumenical tendencies and its attendant rejection of many of the foundational doctrines of the faith; such as the Divinity of Jesus, the Virgin Birth, and the exclusivity of Salvation through Christ’s sacrifice on the Cross, etc. Considering the chaotic state the world would be in, that event would surely move many nominal-Christians toward accepting the global religion of the Antichrist.

But would such an event be possible to pull off? We need only return to Ivan Amato’s July / August 2000 article in MIT’s *Technology Review* magazine, entitled *Lying With Pixels*, to see just how it could. Mr. Amato describes how, “Deleting people or objects from live video, or inserting prerecorded people or objects into live scenes, is only the beginning of the deceptions becoming possible”.⁵ To remove an object, a computer is used to store background information from the scene, and then, in laymen’s terms, realign the frames. The computer determines the foreground and immediate background of the object, finally filling the space of the object with matching pixels until the object is “suddenly gone”. It all takes place in the twinkling of an eye, - less than one-thirtieth of a second, to be exact. And it can be applied in real time. This is not just a theory. It was demonstrated at an international conference on Satellite Imagery, when skater Katerina Witt was made to seamlessly disappear. Not even a shadow was visible. The audience of the world’s elite was stunned. What this all means is that video images could be beamed as live newscasts showing people spontaneously disappearing or being *raptured*. Presented as “news reports”, the video images would be amazingly convincing.

Consider again the ‘Holographic Allah’ we talked about in the last segment; - the one that the US Army wanted to project over Baghdad. Technologically it was not a particularly big deal. One way to create holographs, is by projecting laser beams into space and then bouncing them off of orbiting satellites. They could easily be used to create the images of the world’s various “messiahs” required by New Age “prophecy”. According to Constance Cumbey, in *Hidden Dangers of the Rainbow*, they could also be used “...in such a manner as to appear that flames are coming from the sky”, suggesting the fulfillment of Revelation 13:13. It is possible that one single image could be produced that would be able to be viewed by up to one-third of the world’s population. There is even technology “...to make the image speak in the language of the areas to which it is beamed”. New Ager David Spangler, admits that laser projectors have been installed on the roof of St. John the Divine Episcopal Cathedral, in New York; - a home of New Age thought and practice.⁶ Other New Age sources have ‘predicted’ a worldwide vision where the New Age Christ will appear across the globe, - speaking to each area in its native tongue. Such “**signs and wonders**” could threaten to “**seduce, if it were possible, even the elect**”. (Mk 13:22)

Where again does this technological “power” come from? Cutting Edge’s David Bay is among many that argue that it is Satanic power, allowed by God. Look again at Revelation 13:14. “**Because of the signs he was given power to do on behalf of the first beast, he deceived the inhabitants of the earth.**” The word “power” used here and in many of the prophetic passages of Revelation is the Greek “exousia”. It means “ability”, “competency” “mastery over” and “superhuman”. By its very definition it suggests what may be happening here. The Illuminist / New World Order / New Age forces have been given a “superhuman ability or competency”, - a scientific knowledge with which to deceive the “**inhabitants of the earth**”. David Bay points out that both Vogel, the developer of the Xerox copier, claimed to have received his invention in a psychic dream. And Edison himself was a committed Theosophist. There is that connection between some scientific knowledge and the occult.⁷ It is not a stretch of prophecy that they intend to use the most advanced scientific knowledge: Glorifying Man through the use of Mankind’s greatest purported glory, - science. That is exactly the plan that Lemesurier revealed in the Illuminati blueprint, *The Armageddon Script*.

Spiritual Technology

So that explains the scientific dimension: But there is also a spiritual dimension to the New Age plan. Whatever the ‘*technology*’, it will all be done in cooperation with the ‘*forces of the universe*’. New Age writer Kay Wheeler (or Ozmana), reveals information that she *channeled* from her spirit guide (personal demon) who claims to come from the “Seventh Celestial Plane of Life” (pits of hell). They tell us that Mother Earth, (a living feeling being), is unhappy and troubled. So what the Bible describes as the coming Tribulation and the New Age calls earth changes, will all result because: “The Mother is cleansing”. And as good little...earth children(?)...you “can help your Mother cleanse in such a way that does not destroy all life on this planet”. [There’s the case for and the link to radical environmentalism. But I digress.] And here’s the justification and the reason for the coming removal of those who will not accept this New Order. “Many of these beings have appointments to leave at this time. Earth’s population needs to be decreased to bring forth the necessary changes

upon this planet to move into the fourth dimension.... She has moved into this energy pattern, and those who plan to stay must be of this vibration.”⁸

You see to the truly occult mind, it is all about spiritual technology. Which perhaps brings us to the occult explanation of why and how we may be living in the time that we are in. Way back in 1918, Satanist Aleister Crowley decided he wanted to create a “dimensional vortex” that would break the barrier or serve as sort of a bridge or portal between the physical and spiritual realms. So he performed a ritual called Alamantrah Working through which he believed that he summoned a demonic presence called Lam. One interesting thing about Lam, is that in drawings he made, this being closely resembled what later became known to the UFO crowd as “Alien Greys”. (There again is the connection between demons and aliens.)

About 30 years later Scientology founder L Ron Hubbard and rocket scientist Jack Parsons performed a similar ritual they called *Babalon Working*. This time they sought, - in the words of Tom Horn, - the very “spirit of Babylon, the archetypal divine feminine to pass through the portal and to incarnate itself within a human being”. Many Satanists and high degree Masons believe that they were successful and that “she—the whore of Babylon—walks the earth today”.⁹ If indeed it were true; - She / It would be a product of human and demonic cooperation; - a spiritual expression of the New Age itself.

REVEALING THE MESSIAH !

When he died in 2006 at the age of 108, Rabbi Yitzhak Kaduri was perhaps the most respected Orthodox teacher in Israel. He was an avid student of the Scriptures, steeped in Kabbala, and so generally recognized as a Tzadik or righteous man that over 200,000 mourners filled the streets of Jerusalem at his funeral. All of this would not be remarkable except in the fact that he claims to have met the Messiah.

Now the Kabbala is a complicated, contradictory and mysterious belief system that we have neither the time nor the space to broach here, but let me say a few things in the way of summary. In its best sense, and in its origins, - it is but an attempt to find the hidden, inner-meanings of the Scriptures, specifically the Torah, or the five books of the Law. Over the centuries it has become overlaid with Gnostic, magick, and Dualism; - the concept that there is a supernatural power equal to God. In fact, it has grown and morphed into a mystical / New Age concept that has attracted the likes of seemingly self-seeking ‘personalities’ such as Madonna. Rabbi Kaduri, it seems, may have been a student of Kabbala in its most pure sense. He studied and memorized large portions of Scripture and revealed to his closest followers that he had “met the Messiah in a vision”. Shortly before his death, he wrote the Messiah’s name on a note that was to remain sealed until a year after his death. It was opened earlier this year. The note, written in Hebrew, read: “He will lift the people and prove that his word and law are valid”. More importantly, the phrase provided an acrostic, which initials spelled out the revealed name of the Messiah; - Yehoshua or Jesus.

So what to make of all of this! Many of his Orthodox Jewish students were disconcerted. Two close followers, who checked the handwriting, confirmed the note’s authenticity, while still rejecting the name it revealed. Now, here’s where it gets a little dicey. First, Kaduri, along with several other rabbis predicted that this Messiah would appear only after the death of Ariel Sharon, - the former Prime Minister who still remains in a coma. Rabbi Kaduri further taught that the Messiah will reveal himself in two stages; - first to “some Jews, not...wise Torah scholars”: And then to the entire Jewish nation. He says of his coming, “Messiah will not hold any office but will be among the people and use the media to communicate”. According to his son, he will be coming soon.¹⁰

But that is not the picture that the Bible gives of the return of Messiah Jesus. He will, says Matthew 24:30, be “**coming on the clouds of the sky, with power and great glory**”. Remember, it was the ungodly high priest Caiphas who said of Jesus “**it is better for you that one man die for the people than that the whole nation perish**”. (John 11:50) Now, David Bay of Cutting Edge Ministries sees in all of this the hand of God preparing to raise up the 144,000 Jewish witnesses of Revelation. In Joel 2:28, God promises to “**pour out My Spirit upon all flesh**” in the last days. And perhaps it is. But Dr Stephen Yulish sees a danger in Kaduri’s pronouncement. The Kabbal-steeped rabbi had predicted the tsunami of 2004, and the coming of other natural disasters. He said that in a time of “danger to Israel” the Temple would be rebuilt and then the Messiah would be revealed and worshipped. Scripture tells us that is clearly the course of the Antichrist.¹¹ Still, - though

perhaps despite himself, Rabbi Kaduri revealed the name of Yeshua as the true Messiah. **“Simon Peter answered and said, “You are the Christ, the Son of the living God.” Jesus answered and said to him, “Blessed are you, Simon Bar-Jonah, for flesh and blood has not revealed *this* to you, but My Father who is in heaven.”** (Matt 16:16-17)

THE TERROR OF FIRE

We know now that the fires raging through California were to a large degree purposely set; - the result of arson. It also came out that about 3-months ago Homeland Security & the FBI had officially warned fire stations in the Los Angeles area to watch for “covert photography and surveillance of fire response stations”. Several incidents of the type were subsequently reported, including one in which two men of likely Middle Eastern descent, were observed taking pictures of one fire station and then speeding off in a rented vehicle. Northeast Intelligence further reports that a detonation device was found at the scene of origin of one fire that very much resembled devices described in detail on several Arab terrorist web sites.¹² In 2003 the FBI uncovered an al-Qaeda plot to set a series of forest fires.¹³ In the past, about a dozen al-Qaeda operatives or sympathizers have admitted under questioning to setting forest fires in the Western US for terrorist purposes.¹⁴

IS WAR WITH IRAN INEVITABLE ?

The signs are ominous indeed! President Bush warns that a nuclear Iran could mean WWII. Defense Secretary Gates, previously perceived as a dove when it came to Iran, signals his support.¹⁵ Zogby polls now show that a majority of Americans are willing to go along with a bombing campaign against Iran. So it seems are the French, under new President Sarkozy. And now the Air Force has just asked Congress to approve \$88 million for an “urgent operational need”; - equipping B-2 bombers to carry the 30,000 lbs penetrator bombs necessary to attack the hardened Iranian nuclear facilities.¹⁶ And you know the Israelis are ready. PM Olmert is telling the French and the Brits that Iran has crossed the line and can only be stopped by “direct, military action”.¹⁷

According to the London Times, Washington is preparing the way with what amounts to a comprehensive diplomatic offensive. The US under Secretary Rice, is determined to negotiate a Middle East peace settlement based on an independent Palestinian State carved out of Israeli territory. That state would include Judea, Samaria and East Jerusalem. In addition, Rice is putting the pressure on the Israelis to give away complete control of the Temple Mount, - in the words of Hal Lindsey, - “the very heart and soul of Judaism”; - in exchange for an empty promise of peace.¹⁸ The world is growing increasingly confident that some sort of peace can be achieved. Palestinian leader Abbas believes that settlement will come before the next year is out.¹⁹ Again according to the London Times the quid pro quo is thus: The Arabs get a Palestinian State & the US gets to disarm Iran. That is not as far fetched as it seems on the surface. Sunni states like Saudi Arabia would quietly welcome the clipping of Iran’s Shiite wings.

But an attack against Iran would not be *neat*, even if successful. Syria and Hezbollah would most certainly join the Iranians in launching rocket barrages against Israel and American forces in the region. The Syrians and Iranians are cooperating with the North Koreans in developing a nuclear arsenal. We know the Syrians have chemical weapons as evidenced by their recent chemical warhead accident.²⁰ The President of the Council on Foreign Relations says that a conflict with Iran would more than double the price of oil.²¹ The attacks could destroy the significant progress made in Iraq in recent months and then only postpone the Iranian nuclear program for a few years. Still there may be no other choice. President Ahmadinejad, it seems, will not be dissuaded from his drive for nuclear weapons. He has promised in the past to wipe Israel off the map²² and to create the chaos necessary to give rise to the Islamic Messiah, - the Madhi; - who will lead the slaughter of the Jews. Iran is already showing their hand by fighting a proxy war against the US in Iraq; - sending weapons and terrorists our way. And they are of course, the world’s foremost sponsor of terror. Is war then inevitable? Perhaps not! It does however seem to fit both the world situation and the prophetic template. A strike may indeed be the only human way to forestall a massive attack against Israel by a nation that cares not the price it will pay for the honor of destroying the Jews.
