

THE PLAN – PART XI

We've looked at the goals & the players in this drama: Next, we'll begin to survey the methods behind this mad drive for global domination. There are some very basic and essential tools that the elite are using to create the world they seek.

WAYS & MEANS

“And they said, ‘Come...let us make a name for ourselves’. (Genesis 11:4)

It is essential to understand that this drive for domination and autonomy is rooted in human consciousness. Humanism was birthed in the Garden when Adam and Eve gave way to the lies of Satan who offered them the false hope of life without end and the chance to **“be like God, knowing good and evil”**. (Genesis 3:5) Adam and Eve indeed came to know the reality of morality, - but not in the holy way of God, - but through their own corruption and sin.¹ That was the genesis of humanism and it has motivated the heart of mankind ever since. It was this same motivation that was behind Nimrod's attempt to set up a World Kingdom and universal religion, - honoring himself, - back in the days of the Tower of Babel. But God put an end to that when He scattered the peoples from the Babylonian Plains of Shinar to the ends of the earth. Thus ended the first real attempt at world domination!

But the drive never waned. Great conquerors and emperors from Nebuchadnezzar to Alexander the Great and the Caesars of Rome, to Charlemagne and Napoleon and Hitler all dreamed the dream. It is little different today. Only the means may have changed. Two and a half centuries ago, the House of Rothschild founded banking houses that inside of a generation became the principle financiers of all the Great Powers of Europe; - Great Britain, France, Austria etc. By themselves, or through their networks they bankrolled every side of every major war that has been fought since. At the Battle of Waterloo, their agents rushed back to London a full 20 hours ahead of the official British dispatchers bringing the news of Napoleon's defeat to the head of the British arm of the Rothschild banking establishment. A false rumor was planted that Napoleon had won. The London stock market plunged and the Rothschild's bought up the panic-depressed stocks for “pennies on the pound”. Their value shot up again when the real news of the battle came. The great banking house had expanded its power and reach.² Now we've seen how the Rothschild fortune has become the seed money behind many of the elites of today.

This network of the connected has reached out its tentacles from the financial into the world's of politics and religion. So we see that there is an entity that connects all of the resultant client organizations like the CFR, RIIA, Trilateral Commission and the like. That entity is something called the Bildebergers. The Bildebergers is a group of the elite of the elite which meet on a regular basis: Ranking representatives from all of these organizations as well as from the major financial players, (David Rockefeller is always there), and from the world of power politics, (Brzezinski & Kissinger) meet in secretive sessions to discuss the manipulation of geo-political and systemic economic forces. This is something that is far above any national government; - far more powerful than any sitting President or Prime Minister. Some may be fully initiated into the ‘club’ while others are fellow travelers and others still mere pawns in the game being played.

And a game it is! In 1997, President Carter's man, Zbigniew Brzezinski wrote a book titled *The Grand Chessboard*, which under the aegis of a call for “American Primacy”, has been described as a “blueprint for world dictatorship”.³

In the view of Dr Johannes Koepl, the situation is critical. Dr Koepl was a high ranking NATO advisor and German Defense Ministry official, even presenting for the Bilderbergers and the Trilateral Commission, before speaking out against the “secret policies” of those groups as well as the Council on Foreign Relations. His career abruptly ended. Shortly after 9/11, in November of 2001, - He said: “The interests behind the Bush administration, such as the CFR, The Trilateral Commission — founded by Brzezinski for David Rockefeller — and the Bilderberger Group, have prepared for and are now moving to implement open world dictatorship within the next five years. They are not fighting against terrorists. They are fighting against citizens”.⁴ It is these powers behind the throne that have been running the game for decades.

They have many weapons at their disposal. In fact they’ve often created the issues of the day manufacturing crisis that are made to order for a coming New World Order. There is the Environment with its sub-issues of global warming, population control, energy consumption and the pending Law of the Sea Treaty (LOST). There is the matter of Finances and currency, as the euro is gaining ground on the dollar, - (threatening the American economy), - and causing calls for regional currencies like the proposed amero. There’s the issue of International Trade. There is the matter of global standards for Education, - UN control of planet-wide school standards, - bringing in a hyper-tolerance of all things opposed to the standards laid out in God’s Law, - The Bible. There is Terror, - not created, - but used. There is the increasing ubiquity of surveillance Technology, capable of tracking world citizens both physically and financially. Finally there are the government policy makers, - the entrenched higher-level bureaucracy that survives and promotes its agenda regardless of the current administration, or government in power. Let’s start breaking these down.

The Environmental Canard

Now there are some very real environmental dangers out there and issues that need to be dealt with, but the Radical Greens have turned a real problem into nothing more than a big-stick with which to beat the traditionalists and advance their own socialist agenda. Here’s a quote from *The First Global Revolution*, put out in 1991 by the very globalist Club of Rome. “In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill...All these dangers are caused by human intervention...The real enemy, then is humanity itself”. Britain’s new Prime Minister, Gordon Brown, has called for a New World Order to combat the global warming crisis.⁵

As for population control, an investigation by the Executive Intelligence Review, shows that an “apparatus outside the control of the White House” is working to reduce our planets population by 2 billion souls. They are willing to use disease, famine and war. In the US, the official arm of this group is the State Department’s Office of Population Affairs, a group founded by Kissinger himself in 1975. Here’s the money quote from an OPA case worker. “We have a network in place of co-thinkers in the government. We keep going, no matter who is in the White House”.⁶

Finally, there’s the Law of the Sea Treaty (LOST). This proposed agreement supported by the Pentagon, the Administration and many in Congress would threaten American sovereignty in the name of controlling pollution and the marine environment. It would make the US, - including the military, - subject to UN control. It even opens the door to international control of a nation’s domestic waterways because of the run-off of into international waters. International taxes, (unconstitutional by the way), as well as blatant wealth and technology transfers from nations that are well-off to the have-nots are also part of the package. President Reagan took this monstrosity off the table, but its back on now, awaiting final approval.^{7 8}

An Education System Infiltrated

We must be aware that the real purpose of the Education Establishment is not what you would think. The National Education Association journal told us all the way back in 1947 that its real purpose was to “teach those attitudes that will result ultimately in the creation of world citizenship and world government”. That attitude has been entrenched since the days of John Dewey, ‘The Father of Modern Education’, - who was a fan of the Communist Revolution in Russia. In 1928, he praised their ability to counteract “the influence of home and Church”. We can use the NEA Journal to trace the true heart of Education Establishment. In ’46 they opined that it was the school and the teacher that would “assure the coming of world government”. In 1962 an NEA training manual advocated employing “coercive persuasion in the form of thought reform or brainwashing” in order to advance its social agenda. In 1973 they defined a teacher as a “conveyor of values, a philosopher”. The purposes of the state now trumped the prerogative of the parent. In 1991 the NEA TODAY advocated “comprehensive sexuality education” starting “well before kindergarten age”.⁹

So we are living today with the fallout from these last several decades of indoctrination. Recently the California courts issued a ruling that may rob parents of the right to home school their own children, making kids, effectively, wards of the state. That state already had adopted a policy that enforces the positive portrayal of Gay, Lesbian, and bisexual-sex in all curriculums, - beginning in kindergarten. Sound familiar? And in 2007, Joe Becker, a professor of clinical psychology at UCLA, - a guest speaker at a high school in Boulder, Colorado; - told students: “I am going to encourage you to have sex and encourage you to use drugs appropriately...because you are going to do it anyway”. Another speaker at the same assembly told kids to try “Men with men, women and women, whatever combination you would like”.¹⁰ And World Net Daily reported that “Officials at Deerfield High School in Deerfield, Ill., have ordered their 14-year-old freshman class into a "gay" indoctrination seminar, after having them sign a confidentiality agreement promising not to tell their parents.”¹¹ This is the fruit the new hyper-tolerance, when children are to be citizens of the world first and members of the family last, - if at all.

The Big Brother Environment

For our ultimate peace and safety, the elites are putting into place an array of technology that is challenging the limits of even science fiction. The ‘mark of the beast’ of course may be the implantable micro-chip that can track us physically, medically and financially. Add to that a host of surveillance cameras and sound tracking devices. The Air Force has even worked on microwave beaming which can target individuals in a population, producing sounds only they can hear. We are becoming acclimated to the era of total control.¹²

**** ****

Next we’ll continue looking at more of the ways & means that are being used to prepare us for the NWO.

NOTES FROM A LAND OF CHAOS

It is amazing what we will put up with! Its astounding how little we learn! Just read through the headlines of any given week. These would be frighteningly unimaginable just a few short years ago. This last week saw a bombing in Lahore, Pakistan; - 46 dead in attacks across Iraq; - 8 American soldiers killed in two attacks in that country; - al-Qaeda taking credit for the kidnapping of two Austrians in Tunisia; - and of course the horrific attack on the Yeshiva (religious school) in Jerusalem. The terrorist perpetrator chased down his student victims, dispatching them at close range. There is no doubt that this attack was aimed at the Jewish religious community, - not secular Jews. They’ve already succeeded in cowing the secularists into a ‘*peace at any price*’ mentality.¹³ Palestinian mobs took to the street in Gaza, shouting and dancing in celebration. It was the religion of peace celebrating the a sacrament of death. Hamas used the loudspeakers of the mosques to take credit at the Friday night services. The

shooter's family mourned in a tent decorated with Hamas and Hezbollah flags.¹⁴ Meanwhile the military wing of Fatah, the 'moderate' Palestinian group that is to serve as a peace-partner for the Jews was celebrating too, - calling the cold blooded murder of the students a "heroic act". "Kill them and Allah will torture them in your hands and bring joy to believers".¹⁵ Forgive me if I get all warm and fuzzy when I hear the loving pronouncements of the purveyors of this 'Religion of Peace'.

All the while Israel is under pressure from the Quartett; - from the Europeans; - the Russians; - the Americans, (their closest friends) to talk peace – and give away their land and endanger their very existence with the people that perpetrate that terror and rain down the rockets and arm for war. This is CHAOS!!!!

SET UP FOR THE TRIBULATION

“Nation will rise against nation and kingdom against kingdom. There will be earthquakes in various places, and famines. These are the beginning of birth pains.” (Mark 13:8)

We are watching what might be the last days of preparation before the prophesied rule of Antichrist. The conditions that the prophets and especially Jesus predicted for that coming time of tribulation are fast falling into place. Just look at the price of oil. In February of 2002, it was going for \$21 a barrel. At this writing it hovers at about \$109. If it stays there the ensuing increase in gas, heating oil and jet fuel may provide the final pressure that collapses the economy of the West.¹⁶ Driving the surge in fuel prices is something called "peak oil". The economies of China and India and other Asian nations are expanding rapidly. We may have reached the point where the oil being brought out of the ground and refined cannot meet the ever growing demands of an exploding world economy. The output of petroleum has not increased in the last four years. Now that energy crunch is turning into a food crunch.¹⁷

The price of staples like grains have soared by 75% since 2005. Food riots are breaking out in many African nations.¹⁸ Russia, Ukraine and Kazakhstan have restricted grain export. The price of rice is nearly off the charts.¹⁹ We all see this in the amount we shell out when we check out at the grocery store. And it's not likely to get better. The pressure is increasing, partly because of the pro-ethanol policies we've adopted to solve the oil crunch. Seeing the price of fuel-grains like corn rising precipitously, American farmers are switching crop allocation to these uses, shrinking the supply of available food and driving the price. The price of ethanol use, - going up from about 2% to around 8% of the market in just one year, - is bigger grocery bills.²⁰ Meanwhile an untold supply of oil sits in the Gulf of Mexico and the arctic regions of Alaska, waiting to be tapped. What's wrong with this picture?

JUST A REMINDER

If you'd like to be a part of helping this ministry to expand its outreach your prayers and contributions would be greatly appreciated. Tax deductible donations should be designated for *Zew's News Review* and sent to:

My Father's House

PO Box 286

Springbrook, NY 14140

Thanks again, and may God bless you.
