

ARMAGEDDON CHECK – PART I

*This newsletter has often quoted from a 1980's book by Peter Lemesurier called *The Armageddon Script*. In that work, Lemesurier openly revealed the Illuminati plan to humanly produce the Antichrist. The short of it was that using, wars, a manipulated economy, terrorism and an artificial fulfillment of Biblical prophecy, they would bring, (what he openly called), the Antichrist, - to power. Elsewhere, the New World Order types have given us clues as to their plans. So let's check some news to see how they're doing.*

The Set Up

Perhaps the main thing to understand from the NWO / New Age point of view: The creation of the *New Age Christ* is a human endeavor. His appearance will be no *divine accident of history*. It is to be the result of purposeful actions by men with an agenda. Listen to the writings of Lemesurier starting on page 231. "If the Messiah is to appear, then he must be produced." This is just as much a "function of humanity as divinity". Here is the scenario for his appearance as laid out in the *Armageddon Script* as well as in the writings of some of the other New Age prophets.

1. Arab Israeli War - Israel wins an annihilating victory, fulfilling many Biblical prophecies.
2. Catastrophic Terror – Major terror attacks against the US & Europe using WMDs.
3. Nuclear Crisis In Korea - Lemesurier writes, "A hair raising nuclear confrontation in Korea may, towards the end of the period, threaten man's very survival."
4. Taiwan Invasion - China uses the fact that the U.S. is occupied on two fronts to re-conquer Taiwan.
5. Alien Presence – Extraterrestrials manifest a presence that leads to the collapse of the religious beliefs of many around the globe.
6. Stock Market to Crash – You can see why.
7. Earthquakes around the world.
8. Panic – If all this wouldn't panic the world, what would?
9. The New Age Christ Appears. - He is a man of peace. He claims to be the Jewish Messiah, Jesus, Mohammed and Buddha rolled into one. He shows displays of supernatural power.

Lemesurier goes on to flesh out some of the details.

- a. "The restored Messiah must reappear on Jerusalem's Mount of Olives at the time of a great earthquake", fulfilling Zechariah 14:4. **"On that day his feet will stand on the Mount of Olives, east of Jerusalem, and the Mount of Olives will be split in two from east to west, forming a great valley, with half of the mountain moving north and half moving south."** Lemesurier recommends using earthquake predicting science to aid in the timing.
- b. "He must enter Jerusalem from the east", again on the back of a donkey. This would replay Zechariah 9:9. **"See, your King, comes to you, righteous and having salvation, gentle and riding on a donkey, on a colt, the foal of a donkey"**. The entry is to take the form of a procession across the Kidron Valley, close to the Temple Mount. "The processions sudden appearance will inevitably have a dramatic effect upon those who see it emerging" amid the smoke and destruction of the war.
- c. He will proceed to the Temple Mount, the Dome of the Rock Destroyed, - for the great coronation ceremony. It will take place amid a pall of smoke that will serve as a "terrifying reminder of the Divine

power and wrath.” The use of “special effects should not be ruled out” to produce after tremors and a ‘cloud of Divine presence’.¹

All this is downright eerie, if you ask me! So this is a rather fully developed plan that is intended to no doubt lead to the construction of the Temple anxiously awaited by the Orthodox Jewish faithful. Highlights of the plan revealed elsewhere include:

- A unified globally-controlled Jerusalem
- A combined New World Order Religion, administered under the offices of the Pope
- A world economic merger
- A global political merger
- The construction of a combined Jewish / Christian / Muslim house of worship

All of this is to be brought about by wars and rumors of war. “The impetus toward this type of settlement is made possible only because of a general fear of war. This fear of war must be maintained until the desired political and religious changes have been instituted.” The building crisis will be culminated by the staged appearance of the *New Messiah*. The Messiah will be revealed. Listen how! I am quoting now from Cutting Edge Ministries, who infiltrated the meeting I’ve been describing. “Minutes before the Antichrist arises, some supernatural sound will be heard and spiritually felt by everybody on the planet, simultaneously...with everyone’s attention aroused, images of Antichrist will appear simultaneously over the entire earth, speaking to mankind, each in his own language. The signs and wonders will have begun.”² According to Bill Lambert, head of the New England chapter of the American Theosophical Society, this is all to take place by 2010.

Checking Progress

Arab / Israeli War: - We’ve been following the rising temperatures in the Middle East. Damascus was building a nuclear reactor until their plans were foiled by the Israeli’s last September. Now they’re demanding the Golan Heights from Israel in return for peace.³ Hamas will accept a Palestinian State but won’t recognize Israel and won’t stop launching attacks. The US is moving two more carriers to the region.⁴ Hezbollah, is training and preparing and Iran is rattling sabers as they continue to supply arms to the anti-American forces in Iraq. This region could blow at any time. That fact was underscored by the words of the Chairman of the Joint Chiefs, Admiral Mullen who pointed to Iran’s “increasingly lethal and malign influence” as he openly discussed the challenges of a potential conflict with Iran. America will soon have 4 carrier task groups in the region. Though such a military undertaking would be stressing, he said that “it would be a mistake to think that we are out of combat capability”.⁵

So it increasingly looks like any future conflict in the Middle East, - whether originating on the Iraqi front, or the Israeli one, would likely, - because of the complicated interrelationships, - bring in the other side. And that would achieve the goal of tying up American forces that would allow the opportunity for other problem areas, - ie North Korea, China / Taiwan, - to erupt.

North Korean Nuclear Crisis: - The North Koreans have been caught red-handed, aiding the Syrian effort to acquire nuclear weapons.⁶ Tokyo is reporting that as many as 10 North Koreans may have been killed in last September’s Israeli Air Force raid that took out the Syrian nuclear reactor that was specifically designed for the construction of radiological weapons.⁷⁸ At the end of March, Pyongyang warned they may be willing to preemptively strike South Korea. “Our military will not sit idle...everything will be in ashes, not just a sea of fire, if our advanced pre-emptive strike once begins”.⁹

China / Taiwan Front – While not on the front burner right now, tensions on this front are never far from the surface. The US is verbally committed to defend Taiwan from attack from the Communist Chinese mainland, - but according to Pentagon analysis, America does not at present have the capability to do so effectively. Thousands of Chinese missiles are aimed at the island nation, and Peking has repeatedly warned Taiwan about any movement toward independence, - even if expressed in democratic elections.¹⁰

Alien Presence – Whether a physical manifestation, - or as this writer believes, - a return of the Satanic beings of Genesis 6,- governments around the world are taking the UFO phenomenon increasingly seriously. In 2005, the UN, which has been officially investigating “extraterrestrial life”, debated the concept of preparing for diplomatic relations with alien civilizations that may be visiting.¹¹ In 2005, former Canadian Defense Minister, Paul Hellyer, called for “open disclosure” of just what governments know about the whole ET thing. According to Hellyer, the Pentagon is “preparing weapons which could be used against the aliens”.¹² Whatever we may think, there are earthly powers that may be taking this stuff seriously indeed. It was just last week that more UFOs were sighted over Arizona. Like all sightings in the past, the observable behavior, - sometimes caught on film, - of the supposed alien craft defy the known laws of physics. This newsletter has in the past, presented the evidence that something indeed is going on. Real or staged, a planned alien manifestation would shake the foundations of the world’s religious beliefs, - especially for those not fully grounded in Biblical Christianity. It would move us toward a One World Religion and a unified New World Order government. And ultimately that is the point, isn’t it?

Well, we’ve seen that the New World Order types seem to have made a lot of progress in their revealed plan to produce Antichrist. We’ll finish up next time in looking at this forced march to Armageddon.

THE EVOLUTION MYTH – PART IV

[A series by guest contributor Pastor Lynn Zankl]

Hi folks!! Pastor Lynn here again. Today we are going to look at creation, evolution, and natural selection. Most have heard evolutionary scientists talk of natural selection, but many would be surprised that creationists also subscribe to this idea. In fact creationist and evolutionists pretty much agree with all the tenants of natural selection, except one, that being the millions of years involved in evolutionary theory.

We will look actually at three associated sciences in this area, Natural Selection, Speciation, and Adaptation. Natural Selection is the process by which individuals possessing a set of traits that confer a survival advantage in a given environment tend to leave more offspring on average that survive to reproduce in the next generation.¹³

Speciation is the process of change in a population that produces distinct populations that rarely naturally interbreed, due to location and other factors.¹⁴

Adaptation is a physical trait or behavior due to inherited characteristics that gives an organism the ability to survive in a given environment.¹⁵

Natural selection, is an observable process and falls into the category of operational science. It has been observed by both creationists and evolutionists that new species have arisen in microorganisms, birds, and things like mosquitoes.

Speciation is also an observable process and therefore in the category of operational science. It is observed, that if you take two individuals from the same kind, they can mate and have offspring that survive.¹⁶ Lions and

Tigers are considered different species, but they are of the same kind, the cat kind. The offspring they have make two different species, but they are still species of cat, not “new” animals. Their DNA is still cat DNA. On the other hand two individuals from different kinds cannot have offspring. A cat and a poodle cannot get together and have a catoodle. They are not only different species they are different kinds, and there is no evidence anywhere in the fossil record of a catoodle, even though cats and dogs have been around for a long time.

Adaptation is a favorite of the evolutionist used to prove the existence of the processes of evolution. The fact that an organism can adapt to its environment, is seen as the processes of evolution, and is taught that these adaptations occurred over millions of years. This is simply unobservable and un-provable. Adaptation can be observed and can be seen even in the human genome. The Bible teaches that there is only one kind of man, one race of man, the human being; we can observe adaptations to environment within us. An Eskimo lives in a very harsh environment, and yet he lives a quite comfortable life in that environment, an African man living on the equator also lives in a harsh environment, yet he to lives quite comfortably there, you or I living somewhere in the middle would find both of their environments quite uncomfortable, yet where we are is comfortable to us, this is observable adaptation, that millions of years was not needed to observe. Most evolutionary scientists believe that adaptation brought on structural change that brought on a new organism, as example a fish grew bone structures to become an amphibian, and an amphibian grew more bones and structures to become a reptile. My question to that is where is the proof? Where in the fossil record, that both creationists and evolutionist have, is the organisms that should appear in between? Where in the “millions of years” of mutations, which incidentally, the offspring organism has less information in it than the parent, did these organisms gain information that their parents didn’t have, in order to grow these new appendages?

I would like to conclude today with a quote from an evolutionary scientist, Professor Jerome Lejeune, from a speech he gave on March 17, 1985 in Paris. “We have no acceptable theory of evolution at the present time. There is none; and I cannot accept the theory that I teach to my students each year. Let me explain, I teach the synthetic theory known as neo-Darwinian one, for one reason only; not because it is good, we know that it is bad, but because there isn’t any other. Whilst waiting to find something better you are taught something which is known to be inexact, which is a first approximation....”¹⁷ Until next time.
