A CLEAR & PRESENT DANGER – PART II

There are two trends that are making their way across the planet right now; - Nationally; - a growing government control; & Internationally; - an increase in 'global governance'. Last time out we looked at how the Obama administration was remaking our nation with partnerships between government and industry. Today we'll look at the momentum building for 'Global Governance'.

GLOBAL GOVERNANCE ?

The National Fascism that is being birthed – which by the way, is a phenomena occurring across the globe, - is naturally it seems, bleeding into a form of Internationalism. The fact is: At the beginning of the year the US was scheduled to pay out about \$500 billion in interest payments just for the debt that had already been incurred.¹ That's been increasing by leaps and bounds. And that is putting pressure on the government to fuller cooperation with the global community on a host of issues, - compromising American independence in several areas in the process. President Obama's response has been to pack his team with full fledged globalists. For instance there's the former LA Times communist, Rosa Brooks, an advisor in the Defense Department that thinks the US created al-Qaeda and equates the Bush administration with North Korea and Iran.² More significantly there's Director of Policy and Planning for the State Department, Anne-Marie Slaughter whose 2004 book *A New World Order* argued for "an international system dominated by the U.N. and other global institutions and networks". Add the new Legal Advisor at State, Harold Koh who believes, it seems, in a "world government financed by global taxes". Koh's mentor, Louis B Sohn of Harvard openly called for global government with a global army of 'hundreds of thousands' and a general disarmament of every national government.³ (Oh, that kind of sounds like the plan of the Antichrist, doesn't it?) That kind of talk goes right along with the plans laid out by the ultimately creepy New Age elite like Alice Bailey herself. She believed that nuclear weapons should reside in the hands of the UN and should be used against countries that came against the UN's power. Here are the words of the guru herself from her landmark work, *The Externalization of the Hierarchy*. "In the preparatory period for the New World Order, there will be a steady and regulated disarmament. It will not be optional.One of the first tasks...will be to...gradually see to the disarming of the nations."⁴

Sound incredible? It shouldn't! By the time the First World War ended the ruling classes of the West were terrified, - convinced that left alone mankind would destroy itself, - and saw One World Government as the only hope of survival. That's when groups like the Council on Foreign Relations got started. They were all of one mind: The Nation-State had to go. Since then, - (as documented in my book, *The History of the Future*), - they've been maneuvering to do just that; - unite the world under their own power. Now there's a problem here. In order to unite the world, - the world's lone remaining superpower must, - to a degree at least, - collapse. There seems to be little to no mention of the United States in Biblical prophecy. We just aren't a major player in the Last Days. So policies that promote an American financial implosion and the collapse of the dollar would they hope, lead to worldwide economic coordination of economies, - the retreat of American power, - and fall in with a Biblical prophetic template to boot. As Henry Kissinger drove home the point to Canadian PM Chretien at a Bildeberger meeting in 1996: The world's elite want a unification of the US, Canada and eventually Mexico. It's part of the plan on the way to Global Governance.⁵ By 2008 that same group was discussing the "microchipping of humans on a mass scale...introduced under the pretext of fighting terrorism".⁶

The whole plan was unfolded by Dr Carroll Quigley in his 1966 work: *In Tragedy and Hope*. The Georgetown professor, - a one-worlder himself, - was given access to their secret records by what he termed "the international bankers". His book let out the 'real plan'. "[T]he powers of financial capitalism had another far-reaching aim,

nothing less than to create a world system of financial control in private hands able to dominate the political system of each country and the economy of the world as a whole.” This was to be a new form of feudalism, - operated by the “central banks of the world acting in concert... The apex of the system was to be the Bank for International Settlements in Basel, Switzerland, a private bank owned and controlled by the world’s central banks which were themselves private corporations.”⁷

That’s why there can be little surprise when China and Russia call for the end of dollar dominance and a one world currency, as they did at the G20 meetings earlier this year.⁸ It’s all part of the plan. At that conference the world began to empower the IMF to take a greater role in regulating the global economy and issue some sort of currency. But the real power may devolve to it’s sister bank, the Bank for International Settlements, - a body that is “even more independent” and therefore more capable of taking even stronger actions. It was created in 1930 and has a history of “pro-Nazi leanings”, that might make it the perfect vehicle for the perceived New World Order of the coming Antichrist; - blending as it will the economic architecture of fascisms with the New Age / Nazi-style paganism of the Hitlerian regime. Remember that the real power in the emerging world system is not wielded by Presidents and Prime Ministers but by the International Banking Families, - operating through their privately owned Central Banks...like the Federal Reserve. The United States tried once to kill the bank back in 1944 but they were quietly overruled by the banking families.⁹

It seems that there is an “inner-club” among the 55 member nation ruling council for the BIS that holds the real power. And that power has been long openly pushing for a world currency. They create debtor nations by forcing loans on countries and so then assume financial power there. The US is now one of these, - at the mercy of international community to finance the interest on its debts. And there is no good end in sight! They “control the amount of currency in circulation” and the cost to governments of borrowing that money. As Joan Veon puts it: They “pull the strings of the world’s monetary system...[and they can] create boom or bust in a country”.¹⁰ And what do they intend to do with so much power. Ellen Brown suggests: - They intend to “create so much economic havoc that the world would rush into the waiting arms of the BIS with its privately-created global currency”.¹¹ And so it may be! It is the very creation of this economic power that will allow for the total control of the population of the planet. This will find its final and ultimate expression during the Tribulation when the coming Antichrist, - likely using some sort of micro-chipping, - will fulfill the prophecy of Revelation 13:16-17. **“He causes all, both small and great, rich and poor, free and slave, to receive a mark on their right hand or on their foreheads, and that no one may buy or sell except one who has the mark or the name of the beast, or the number of his name.”** Yes, it could still be years away, - but we really are that close!

The actions by the Federal Reserve and the US government during the last several months have moved the world far down this road. If you’re looking for evidence just follow the money. So much of the various stimulus and bailout cash is flowing directly into the hands of the Council on Foreign Relations (CFR) through the Corporations that support that organization as well as their employees. It is a very incestuous relationship where the One Worlders through the International Banking Families that run the Fed and other central banks around the world funnel tax payer dollars to their own intimate circle. Remember, the ultimate goal of the CFR is the imposition of a global government. As one writer puts it, “The CFR is the promotional arm of the Ruling Elite in the United States of America”. And the aim of that financial power is the establishment of a New World Order. One Senator, William Jenner warned that the American government was really already in the hands of this power, “operating within our government and political system, another body...a bureaucratic elite which believes our Constitution is outmoded”. And Supreme Court Justice Felix Frankfurter (1939-1962) told us that, “The real rulers in Washington are invisible and exercise power from behind the scenes”.¹² The pages of *Foreign Affairs*, official organ of the CFR tells us their goals all the time. In 1974 it was former Assistant Deputy Secretary of State Richard Gardner that wrote about making an “end run around national sovereignty, eroding it piece by piece.” And James Warburg of the big money banking family told the Senate Foreign Relations Committee in 1950 that “We shall have world government whether or not you like it – by conquest or consent”. I write all of this just so you know who we’re dealing with here.¹³

Well this same Council on Foreign Relations is being supported and financed by the likes of some pretty heavy-duty corporate sponsors. They in turn are feeding off the public trough. Here's just a bit of the record on this front. Tim Geithner, the Treasury Secretary and man in charge of distributing the bailouts was a former staffer at the CFR. The corporations that are getting the lion's share of the cash are just about all former major contributors to the organization; - and in many cases directly tied in to the International Banking Families that control the Fed in the first place. These include: American Express Company, Goldman Sachs, Merrill Lynch, American International Group, Citibank, Morgan Stanley, Bank of NY / Mellon, Freddie Mac, Chrysler, JP Morgan Chase and CIT Group. Over \$1 trillion in all.¹⁴

So there you have it. The One-Worlders are fast working their plans to drive us into the new world order. On the national level, - in countries all around the globe, - we are seeing increasing socialism and control. On the international front power is devolving away from national governments and concentrating in the hands of a global elite. In both cases these trends serve as a 'clear and present danger' to individualism, to freedom, and to the survival of Biblically-based Christianity.

PAKISTAN: THE NEW DANGER

Pakistan is fast spinning out of control. In many ways the country resembles a feudal society with the religiously zealous Taliban and its' sister group al-Qaeda conducting what Arnaud de Borchgrave calls "a rerun of the Islamist fundamentalist revolution in Iran". *And we all know how well that turned out for the America and the West.* The country is one of the world's 8 acknowledged nuclear powers, and therein lies the danger. The struggle between government and Taliban / al-Qaeda insurgency has been going on for years led by an army whose ranks are filled with religious zealots coming out of the madrassas, religious schools that feed them the medieval propaganda. This army has more in common with the rebels they are fighting than with the government they serve, so there is not in the fight.¹⁵

As of late, the Taliban has been on the march in the country. Recent fighting saw them within 60 miles of the capital of Islamabad. That's starting to worry folks in the region, - and the world at large, - concerning the safety of Pakistan's nuclear arsenal.¹⁶ And this is no marginal nuclear power. Pakistan is a major player with an estimated 100 nuclear weapons, and an army larger than that of the US. Some experts believe the country could collapse within months.¹⁷ Speaking at the end of April, General Patraeus, Commander of American forces in the Middle East, told American officials how the next several weeks are critical to the survival of the Pakistani government. Secretary of State Clinton said, that should the government there fall, the Taliban "would have the keys to the nuclear arsenal of Pakistan, and we can't even contemplate that. We cannot let this go on any further".¹⁸ And she's right about that. The idea of the fundamentalist Taliban or al-Qaeda types in charge of that massive inventory of deliverable nuclear warheads would be unthinkable for Israel, America and the West. Such a development would be a game changer in the War on Terror.

IRAN: THE OLD DANGER

The developments in Pakistan, - and Afghanistan, where things are getting a bit more dicey, - is what is driving to a great degree, the Obama administration's shift in policy vis-à-vis Iran and Israel. Israeli intelligence is convinced that the US is willing to wink at Iranian nuclear capability in exchange for Tehran's cooperation in the Afghan and Pakistan theaters. A report to leaders in Jerusalem says that President Obama is wanting to reconcile with both Iran and Syria, despite Iran's support for Hezbollah and Hamas and despite Syria's hosting of several Middle East terror groups.¹⁹ In return the US is reported to be negotiating a safe passage for American troops and supplies into Pakistan, - across Iranian territory.²⁰ As an incentive Washington is sponsoring Iranian participation in using the Nabucco natural gas pipeline running from the Caspian, through Turkey to the EU. That would make Iran a major supplier of natural gas to the West.²¹ All this does not mean however that Iran is behaving in return. Tehran has arranged to receive Russian Iskander cruise missiles, - an offensive weapon, - with the sale routed through the former Soviet republic and now independent, Belarus.²² In a disturbing addition, Iran has worked a plan to acquire quantities of uranium for its nuclear program from Brazil. The deal was arranged with the help of our buddy from Venezuela, - Hugo Chavez working along with the Russians.²³

FAST & FURIOUS

“All these are but the beginning of the birth pains.” (Matthew 24:8) (ESV) Everything is accelerating. Jesus told us that the time before His return would resemble birth pains; - with signal events increasing in both frequency and intensity. That’s what we are seeing today. The prophetic templates are fast filling in. To be honest, it is difficult to keep up with all the newsworthy developments with prophetic implications. With that in mind, this newsletter, - in this and future issues, - will try a new approach for some stories. For a portion of our coverage at least we will forego in depth analysis and instead give you the outline of the development with possibly a short hint at the prophetic implications. Of course, we will continue to explore feature stories in a comprehensive manner.

ISRAEL - Obama’s Chief of Staff Rahm Emmanuel was the administration point man when the US definitively switched the game on Israel. Here’s the way Israel’s Y-Net News reports it. “He reiterated that the ability to confront Iran depended on the ability to make progress on the Palestinian front. Solving the conflict will make it possible to advance the handling of the main threat posed by Iran”. In other words he made American help in solving the Iran problem contingent on Israel giving up land to create a Palestinian terror state.²⁴ Adding urgency, - as reported on Germany’s NTV, - General Attalah Salihi, - Iran’s Chief of Staff, - announced “the destruction of Israel in eleven days”. If something is in the works, it would coincide with the celebration of the founding of the Jewish nation to be celebrated on May 14th.²⁵ Meanwhile the French press reveals that the Israelis have been practicing mid-air refueling on long distance flights, - a skill that would be necessary for the Israelis to take out the Iranian nuclear capability.²⁶ The Israelis have been preparing for both the attacks themselves and the Iranian retaliatory strikes.²⁷ Jordan’s King Abdullah II meanwhile warned that Israel faces inevitable war if no Palestinian state is founded within 18 months.²⁸

WANTING DANIEL’S TREATY – 69% of Israelis want to see the country a part of the EU. 62% would like to have NATO peacekeepers in the West Bank. Those trends support the creation of a Revived Roman Empire with much the same look as the original. The idea of foreign troops in the Land, coupled with the growing push to divide Jerusalem suggests the coming Tribulation era arrangement wherein the Antichrist rules Jerusalem.²⁹

END OF THE SWINE FLU – NY Times headline: “No Signs of Sustained Global Spread of Swine Flu”. Outside of Mexico, this version of the H1N1 was milder than even a normal flu virus. Still the head of the World Health Organization warned that like the 1918 version, a second wave could come back with a vengeance. Health officials are puzzled by the fact that this bug seemed to strike Mexicans harder and with a higher mortality rate.^{30 31 32}

NO MORE SUGAR DADDY – Judging from returns in on Chinese investments during January and February, that country may have ended the gravy train for the US economy. China has been subsidizing the American lifestyle by buying up US debt in the form of T-Bills. Statistics show that may have stopped, with investors putting their hard-earned yuan elsewhere. The slack is being taken up by the Federal Reserve, - buying the government T-Bills. This has the practical effect of just printing money. Peking has stated that it would like to replace the dollar as the world’s international currency.³³
