### SWINE FLU & THE DEPOPULATION AGENDA – PART IV

**“So the four angels, who had been prepared for the hour and day and month and year, were released to kill a third of mankind.”** (Revelation 9:15)

*We've been covering dangers from the Swine Flu vaccine, the World Health Organization's drive to inoculate the world and the spider-like network of governments, - including our own, - as well as the UN, - that are working hand in hand – with Big Pharma to make this happen. They are even willing to use forced vaccinations if necessary. Now the question is: Why? And the answer may be more than a little bit scary.*

#### THE DARK SECRET

“World population needs to be decreased by 50%.” – Dr Henry Kissinger, former Secretary of State of the US

“War and famine would not do. Instead, disease offered the most efficient and fastest way to kill the billions that must soon die if the population crisis is to be solved. AIDS is not an efficient killer because it is too slow. My favorite candidate for eliminating 90 percent of the world's population is airborne Ebola (Ebola Reston), because it is both highly lethal and it kills in days, instead of years.... We've got airborne diseases with 90 percent mortality in humans. Killing humans. Think about that.... You know, the bird flu's good, too. For everyone who survives, he will have to bury nine” —Dr. Eric Pianka University of Texas<sup>1</sup>

Dr Pianka's words quoted above were not greeted by disgust, horror and revulsion, - as one might expect among sane people; - but were followed instead by a raucous, approving standing ovation by an audience dedicated to population control and reduction. Though perhaps a secret or certainly flying under the radar to the bulk of the American public, these sentiments are not so rare as one would hope. In fact, the reduction of the population by half, - or two-thirds, - or even 95% is a popular theme among the radical Greens, New Agers, those overtly tied to the occult such as Theosophists, as well as the infrastructure of the UN, Ted Turner, Mikhail Gorbachev and others. In fact, CNN founder and United Nations supporter Ted Turner once told Audubon Magazine, “A total world population of 250-300 million people, a 95% decline from present levels, would be ideal.”<sup>2</sup> Just as the Bible tells us: In the last days, the Global population will be culled by a quarter, - and following that, another third. Massive death and destruction is coming. Revelation 6:8 puts it thus: **“So I looked, and behold, a pale horse. And the name of him who sat on it was Death, and Hades followed with him. And power was given to them over a fourth of the earth, to kill with sword, with hunger, with death, and by the beasts of the earth.”** What we are seeing now is the setting of the stage. The intellectual / spiritual groundwork is being laid for the massive carnage to come.

*‘But that's just some Nut Jobs on the fringe’, you may say. ‘That's not the folks that run the world’. But you would be wrong about that. Those wild opinions are held by more ‘movers and shakers’ than you can imagine, and they wield more power and influence than is safe. Dr Stanley K Monteith, who has exhaustively researched the topic, is convinced that there are many who fully “intend to kill off large segments of the world's*

population”. He points out that Hitler too, had such a plan, and that he revealed that plan in his book *Mein Kampf*, written well before he took power. Just like the Nazis, - the New Agers and their occult allies have written revealingly, - and extensively on the subject. Dr Monteith says, “I hold that belief because I have read their writings. I believe they are telling the truth.”<sup>3</sup> So do I.

### **Dangerous Nut Jobs – And More**

The problem with all of this is that these aren't just a bunch of psychotic crazies. Among their ranks are world statesmen, international businessmen, national leaders, New Age religious leaders and thinkers, and a special cadre of UN officials of whom several seem to have been attracted to this bizarre theological philosophy. For that's exactly what it is. And in case after case it is closely tied to various forms of the demonic and the occult. Henry Kissinger, who pretty much ran the Nixon and Ford White Houses when it came to foreign policy – and is a key member of the Illuminati through his Rockefeller, Bildeberg, CFR and Trilateralist connections, - said “The elderly are useless eaters” and that “Depopulation should be the highest priority of foreign policy towards the third world, because the US economy will require large and increasing amounts of minerals from abroad, especially from less developed countries”. Another world leader, Mikhail Gorbachev, the former head of the Soviet Union; - a devotee of the occult beliefs of the most radical forms of environmentalism, - has said, “Cut the population by 90% and there aren't enough people left to do a great deal of ecological damage”.

The question then becomes: ‘How can this be justified?’. And the answer actually is rather simple. As Darwinism has taken hold in the culture, - even by some professing Christians and Catholics; - it has tended to blur the lines between species. If, - as the evolutionists claim, - man is but a more evolved member of the animal kingdom and nothing more, - then there is little qualitative difference between the species. On that basis we cannot claim any more rights, than the amoeba or the monkey or the giraffe. But that's not how God sees it. Here's Genesis 1:26 -27. **“And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. So God created man in his own image...”** (KJV) That whole ‘in the image of God’ thing is what gives mankind, (and womankind), - their intrinsic value. It's also what gives the evolutionists fits in that it explicitly contradicts their founding principles. They see us as nothing more than animals. Another notch on the evolutionary chain!

One the most influential proponents of the philosophy that undergirds the depopulation movement is Princeton bioethics Professor Peter Singer. Look at some of the ideas he's pushing. Singer, who is described as “extraordinarily influential”, in philosophical circles, has stated, “The life of a fetus is of no greater value than the life of a nonhuman animal at a similar level of rationality”. To him, the value of human life is determined by its utility to others. Therefore: “When the death of a disabled infant will lead to the birth of another infant with better prospects of a happy life, the total amount of happiness will be greater if the disabled infant is killed. The loss of happy life for the first infant is outweighed by the gain of a happier life for the second. Therefore, if killing the hemophiliac infant has no adverse effect on others, it would, according to the total view, be right to kill him.” Singer has suggested that parents have the right to terminate the life of an infant up to 28 days after birth. [*I guess that would be a form of 'post-birth abortion'.*] He has no problem with children being bred for spare parts. And he is not alone in his craziness. Dr Charles Hartshorne of the University of Texas aggress that “Of course, an infant is not fully human”.<sup>4</sup> This is the insanity that visits those whose hubris has led them to deem themselves more omniscient than even a God they will not recognize. The Apostle Paul had some choice words for those that would raise their own flawed reason above a Holy God. **“For since the creation of the world His invisible attributes are clearly seen, being understood by the things that are made, even His eternal power and Godhead, so that they are without excuse, because, although they knew God, they did**

**not glorify *Him* as God, nor were thankful, but became futile in their thoughts, and their foolish hearts were darkened. Professing to be wise, they became fools”.** (Romans 1:20-22)

Yet armed with their feeble intellectual architecture, others try to justify this drive to depopulate the planet. Famed underwater explorer, Jacques Cousteau doesn't blink when he tells us: "World population must be stabilized and to do that we must eliminate 350,000 people per day". Lee Penn tells us that works out to 1.27 billion people over 10 years. But that's just not enough for some. *Ecotopia* author, Ernest Callenbach says that there's *way too much consuming going on* and wants to get the global population down to 1 billion. That would mean losing over 5 billion souls.<sup>5</sup> Michael Fox of the Humane Society thinks "Mankind is the most dangerous, destructive, selfish and unethical animal on earth".<sup>6</sup> And fairly drooling with anticipation, Bertrand Russell wished that "Black Death could be spread throughout the world once in every generation... Really high-minded people are indifferent to suffering, especially that of others".<sup>7</sup> New Age writer Dr San Keen raised the stakes a bit higher calling for a population reduction of 90% so there won't be "enough people left to do a great deal of ecological damage".<sup>8</sup> Finally, the Georgia Guideposts, that neo-pagan "Druid-like monument" of the New Age calls for no more than 500 million folks to populate mother earth, "in perpetual balance with nature".<sup>9</sup> Rosemary Radford Ruether, - described as an "eco-feminist theologian", puts the compassion back in to this murderous agenda. She believes nature would be "better off" without people to muck it up. "We are the parasites on the food chain of life, consuming more and more". And no doubt in her 1998 pronouncement, you could fairly feel the caring in her voice as she intoned: "We need to seek the most compassionate way of weeding out people". To Reuther, the pro-life movement is at minimum, - misguided. It brings only poverty and disease. In its place, she calls for a "spirituality of recycling". "We need to compost ourselves", says she. And "Nature would be better off without us".<sup>10</sup> To Ms Reuther and her ilk, this theology of death, has become a religion. Here is the Bible's judgment of it. **"Woe to those who call evil good, and good evil; Who put darkness for light, and light for darkness; Who put bitter for sweet, and sweet for bitter! Woe to those who are wise in their own eyes, And prudent in their own sight!"** (Isaiah 5:20-21)

### **Back To The Present**

So let's jump back to the here & now for a moment. The vast public healthcare infrastructure is right now preparing the way for a massive vaccination campaign and expansion of Federal government power to carry it out. Lew Rockwell reports that an International Swine Flu Conference being held will discuss such issues as the "Breakdown of public services, utilities", and how to "Control & diffuse social unrest". They are preparing for what the New American headlined as "The Militarization of Swine Flu Preparations". The National Guard has practiced dealing with a 'flu riot' at a high school and the Army started bringing home combat units last fall to "help with civil unrest and crowd control". In its latest plans, the Pentagon wants to be able to post nearly 400,000 troops in the US, - and take control of National Guard units from the governors. One member of Congress, - Rep Paul Brown of Georgia, - went so far as to warn that a "socialistic elite" may be using unfolding crisis to impose martial law. All of this seems put in place to deal with a growing resistance to getting what increasing numbers are seeing as some very dangerous shots.<sup>11 12 13 14</sup>

In Great Britain, - where the government is poised to begin a national mandatory vaccination campaign, - doctors and scientists are beginning to speak out against the dangers inherent in the vaccines. A secret but leaked letter from the UK's Health Protection Agency warns of the increased risk of paralysis from Guillain-Barre Syndrome. The document sent to over 600 neurologists pointed out that in the American vaccination program of 1976 "500 cases of GBS were detected" and that the shots are therefore sometimes fatal. The UK's Daily Mail reported a senior neurologist as saying, "I would not have the swine flu jab because of the GBS risk".<sup>15</sup> There is definite resistance to the vaccine among Britain's health professionals. A poll of nurses revealed that 30% would refuse the vaccine, with another 37% saying that they weren't sure whether they would get it or not.<sup>16</sup> Then there's the

fact that that the rapidly mutating nature of viruses means that a vaccine provides protection sometimes for less than one full flu season.<sup>17</sup> And if that's not bad enough, recall that this vaccine was in the hopper before the disease was even discovered. *Mmmmm!* If the vaccine isn't bad enough. Britain's Guardian was warning about the possible fatal risk in Tamiflu, - the after-you've-got-it flu medicine. Some British health officials are saying that it could do "more harm than good".<sup>18</sup> And still the authorities seem 'hell bent', - (and I use the term 'hell' advisedly), - on imposing this massive exercise of government control on its citizens. Next time we'll explore the religious connection that is driving this culture of death. There is indeed a spiritual agenda that is being advanced in this dark philosophical construct. Its source is Satan, the father of lies, himself.

## **PEACE FEELERS**

On August 3<sup>rd</sup> the Jerusalem Post wrote about a report that said Iran could have homegrown nukes within the year.<sup>19</sup> The next day it was reported that the Prime Minister of the Palestinian Authority had declared Jerusalem as the capital of Palestine.<sup>20</sup> At the same time al-Qaeda #2, - Ayman al-Zawahiri called for Israel to be 'wiped off the map'.<sup>21</sup> Through all of this, Israel's armed forces are training and preparing and laying the groundwork for a strike on the Iranian nuclear facilities. And just this last week, the Ayatollah Khamenei, - Iran's Supreme Leader, - issued a call to Iraq, Turkey, Lebanon, Pakistan and Afghanistan to join together with Iran in forming an ostensible 'Mahdi' Army to fight the likes of Israel and the US. Its purpose would be to "stop the obstacles that may hinder the coming of the Mahdi", - the Islamic messiah.<sup>22</sup> By Islamic tradition, the Mahdi is to come at the end of age, - join with the prophet Issa, - (the Islamic name for Jesus), - and unite the world under Islam, - killing off the Jews and Christians that resist conversion. Iran's President Ahmadinejad believes that he has a divine mission to create the chaos out of which the Mahdi will come.

*So with such a welcoming climate, it must be time for peace! Right?* Egyptian sources are saying that President Obama seeks the formation of a Palestinian state with borders in place, - and other issues to be settled later. The Palestinian Authority wants to use the overly generous plan put forth by former PM Olmert as the starting point for negotiations. Olmert offered 95% of the West Bank as well as parts of East Jerusalem and more.<sup>23</sup> In Isaiah 34:12, we see the judgment on the proclamation of this pretender state. **"They shall call its nobles to the kingdom, But none shall be there, and all its princes shall be nothing.** Earlier this month, DEBKA reported that Mr Obama was seeking a Middle East Peace Conference before the end of the year that would seek to close deals between Israel and the Palestinians, Syria and Lebanon. It would bring in other major powers, such as Russia, China, India and Europe as well as other Arab Nations like the Saudis, Syria and Egypt.<sup>24</sup> Any plan would of course involve the surrender of land that God promised to Israel.

Such international concern with the fate of Jerusalem is prophesied by the Scriptures. And its outcome is not good. **"Behold, I will make Jerusalem a cup of drunkenness to all the surrounding peoples, when they lay siege against Judah and Jerusalem. <sup>3</sup> And it shall happen in that day that I will make Jerusalem a very heavy stone for all peoples; all who would heave it away will surely be cut in pieces, though all nations of the earth are gathered against it."** (Zechariah 12:2-3) In the end, the nations will tire of diplomatic pressures and try to impose their will on God's Holy City His Land. Zechariah 12:6 reveals God's promise of judgment for those actions. **"In that day I will make the governors of Judah like a firepan in the woodpile, and like a fiery torch in the sheaves; they shall devour all the surrounding peoples on the right hand and on the left, but Jerusalem shall be inhabited again in her own place—Jerusalem."**
