Issue # 257

SWINE FLU & THE DEPOPULATION AGENDA – PART VII

Over the course of the previous seven installments we've looked at the Swine Flu phenomenon and its possible link to a depopulation agenda among the world's elite through many different lenses. As we finish up, we're going to try to give all of this a little perspective. From time to time, those in on some parts of 'The Plan', - the New World Order agenda for our planet, are kind enough to reveal some of their cards; - to show us what they have in mind for the rest of us. Way back in 1969, Dr Richard Day gave a speech of health professionals at the Pittsburgh Public Health Society. From '59 through 64, Day served as the Medical Director of Planned Parenthood Federation of America. He asked that his listeners turn off their tape recorders and put away their notebooks. One did not. Dr Lawrence Dunegan wrote notes on the back of some napkins and later reconstructed much of Dr Day's speech in a presentation titled 'The New Order of Barbarians'. Today, we're going to look at the world of the future that Dr Day says is coming. Dr Dunegan describes Dr Day as being - in on the plan...at least somewhat. Recall the time in which he was speaking. Today we've already seen many of the transformations he said were coming already come to pass. Many were not even on the horizon back then. In other cases we can see the shadows of their fulfillment forming even now. You may be shocked at what you read. Just hold on for the ride. Your eyes may just be opened.

CLUES OF REVELATION

“Surely the Lord GOD does nothing, Unless He reveals His secret to His servants the prophets.”
(Amos 3:7)

One of the common themes of this newsletter is that 1) God's Word is coming to pass as exactly as prophesied & 2) There is a plan afoot by God's enemies to thwart God's plan and replace it with their own; - a full scale rebellion, - if you will, - against the very God of the universe. 1John 4:3 tells us that **“...this is the spirit of the Antichrist, which you have heard was coming, and is now already in the world”**. In examining the working out of man's plan, - and how God is turning it to His own purposes, - let's begin where we are right now...as this newsletter is being written.

The World Health Organization is continuing to stoke the panic. At the end of August it announced that H1N1 had overtaken other versions of the flu “and is now the dominant influenza strain in most parts of the world”.¹ But the news from Australia is good. Australia's winter and flu season has peaked, with the Swine Flu taking far fewer lives than expected and with “no sign that the virus had mutated into a more deadly form”.² Still plans are moving full speed ahead on the inoculation front. Massachusetts is preparing legislation that would, - in the words of World Net Daily, - “allow authorities to forcefully quarantine citizens...compel health providers to vaccinate citizens”, as well as allow “forceful entry into private dwellings and destruction of citizen property”. Other states are taking similar measures. The Iowa Department of Public Health is making provisions for the forced relocation of individuals from “home to a quarantine facility”. Florida provides for graduated responses that range from a “voluntary home quarantine” to a “quarantine detention order”. North Carolina is preparing to “issue emergency detention orders”. The State of Washington is taking a similar path.^{3 4}

The Past Tells The Future

By now, it's time to jump to the 'meat' of this issue's presentation to put things into perspective. Thus we go to Dr Day's presentation from 40 years ago. I will unfold the plan revealed by Dr Day, - pretty much in the order in which it was presented on the taped presentation by Dr Dunegan.

Dr Day began with some introductory remarks that included the boast "...everything is in place and nobody can stop us now". Dunegan reported that he spoke of a 'secret agenda within organized medicine to cull the world's population'. There was going to be a 'morals revolution' that would shake Western culture and usher in a New World Religion for the New World Order. This would be engineered in such a way as to have the Church's, - especially the Catholic Church, - take the lead in its formation. Along the way "terrorism" would be used, - and the nation would be brought to "the brink of nuclear war". How would this be done? Day admitted that there was an "organized power, force, group of men, who wielded enough influence to determine major events involving countries around the world", to ensure that this would take place. The good doctor expounded. This was something "much bigger than Communism". People within the government don't understand what is really going on. Obama's theme of 'Change You Can Believe In' was anticipated it seems, even back then. "People will have to get used to the idea of change, so used to change, that they'll be expecting change. Nothing will be permanent."

Population control is one of the keys to establishing the New Order. A War against pollution and control of the food supply would be key tools in that war. Eventually, people would require government permission to have babies. [It is interesting to note at this time that President Obama's Science Czar, John Holdren calls for just that. In the book *Ecoscience* he states: "Individual rights must be balanced against the power of the government to control human reproduction". He goes on to argue for laws that would prevent women from having more than two children. In 1977 he also came out in favor forced abortions and mass sterilization by injecting drugs into the nation's drinking water. I'M NOT MAKING THIS UP!!^{5 6}] Dr Day then talked about redirecting the very purpose of sex: Sex without reproduction and reproduction without sex'. Contraception and the introduction of sex education would serve as tools to advance the notion of World Government. The idea would be to get kids interested in sex early and utilize the schools (clinics etc) to diminish the importance of marriage and the family. This would eventually merge into the use of 'tax funded abortion as population control'. [Recall, this was before abortion was even declared legal by the Supreme Court.] The thought was this. As sexually educated younger children became more sexually active more of them would become pregnant. That would break down the objections of Middle America, - opening the door to legalized abortion. Then throw in the *Homosexual Revolution*. Again, Dr Day: "People will be given permission to be homosexual". Taken together, all of this would diminish the importance of the family. Easy divorce would aid in that purpose. Eventually, living together would be essentially equated with marriage itself.

It was after this that Dr Day turned his attention to medical issues. He predicted the tremendous rise in the cost of medical care. Those costs would become so burdensome that euthanasia would eventually be seen as a viable solution. The rising costs would force people into insurance plans, - [not necessarily a common feature of the era during which he spoke], - and this would eventually lead to complete government control of the health care system. The powers would then move to eliminate or diminish the role of private doctors, as well as severely limiting their salaries. [Those are some of the features of some of the Health Care bills currently before Congress.] That in turn would see the establishment of group practices, - a regular feature of today's HMO-based system. He went on to predict the appearance of new and difficult-to-treat diseases. He even claimed that cures were available for "almost every cancer right now", boasting that the Rockefeller Institute had that information. It would not be released however, as that would only aggravate the population problem.

There were many other areas he covered. An edited list follows:

- Changing the Bible by revising key words
- Education as a tool of indoctrination and evolution
- Encouraging 'Drug Abuse to create a Jungle Atmosphere'
- Restricting travel
- Undermine patriotism
- Shift jobs overseas to eliminate job security
- Take away the right to gun ownership
- Severely limit the ability of individuals to own their own homes
- Desensitize the population through violence and pornography to prepare them for massive human casualties
- Use the Environmental Movement as a tool to concentrate the population for control purposes

- Use Deforestation as a tool to concentrate the population for control purposes
- Utilize an ID chip implant to control the population
- Control food supply – even to the point of outlawing home gardening
- Use inflation and expanded credit to collapse personal buying power
- The Cashless Society - Eventually use an implanted chip for all personal banking needs

And there was more. Much more! Eventually, Dr Day got around to talking about the nuts and bolts of implementation. The New World Order would be announced, - on a weekend, - in the winter. That would give folks about 48 hours to ‘desensitize’ and get over the shock. There would be nothing open, - no place to protest. Shortly after that people would be called upon to ‘publicly acknowledge their allegiance’ to this “New Authority”. Those who chose not to do so ‘would simply have nowhere to go’. Without that action, you would be cut off from the banking system. You couldn’t pay your bills, buy food, collect your wages or even have a place to live.⁷

**** *

Dr Dunegan paints a fantastic and frightening scenario with Dr Day’s words. Yet over the last 4 decades we’ve seen so much of it already come to pass. And population control – and reduction, - is a key element of that program. We’ve looked at the plans of the New World Order types, - expressed in their own words. It has been said that the Illuminati always test-drive their plans before putting them fully into operation. [Hitler, was but a test of the coming Antichrist regime.] Now this inoculation plan seems but a test-drive of their plans to depopulate the world. If we look at the Bible, the destruction that they seek seems to come only during the Tribulation. Still the current inoculation plans are fraught with dangers. Even the medical personnel and developers of the vaccine are not confident enough to in their efficacy to take them. So we each have decisions to make. And we must make them with God’s help. Now Dr Day said, “There just won’t be any room for people who won’t go along. We can’t have such people cluttering up the place, - so such people would be taken to special places...People will just disappear”. That is the way of the Antichrist Plan. But our God is greater than that. Here are the words of Psalm 31:19 & 20. **“Oh, how great is Your goodness, Which You have laid up for those who fear You, Which You have prepared for those who trust in You In the presence of the sons of men! You shall hide them in the secret place of Your presence From the plots of man”.**

RUMORS OF WAR & PEACE

Amid the momentum for renewed, substantive talks between the Israelis and the Palestinians, - there is growing reason to believe that war may be just over the horizon. Hezbollah is gearing up, - for something it seems, - and developments on the Iranian front are ominous indeed. Let’s start in Lebanon.

Over the last year or so, Hezbollah’s presence in Lebanon has become legitimized. They’ve become so powerful in fact, that their leadership is spurning an offer to hold one-third of the seats in the Lebanese government.⁸ They’ve become so *legitimate*, that special Middle East Envoy Tony Blair suggests that along with their sister terror group Hamas, they can play a role in the Palestinian peace process.⁹ Somehow in all of this, a peace-at-any-price-hungering-world, is closing its eyes to the facts on the ground. Israeli reconnaissance is reporting that Hezbollah operatives are setting up positions in villages near the Lebanese / Israeli border.¹⁰ What’s most alarming about that, is the fact that they’re starting to upgrade their weapons caches in ways that could cause the next round in the ongoing war with Israel to escalate out of control. Almost two months ago now, 8 Hezbollah terrorists were killed when a weapons warehouse containing chemical weapons blew up just miles from the Israeli border. Hezbollah has recently taken delivery of mustard gas and nerve gas warheads and are “about to receive biological weapons as well”. Arab sources have predicted that the Lebanese based terror group is preparing “for something big”. The weapons were supplied by North Korea who delivered them through the good offices of the Syrians. Hezbollah is believed to have 80,000 missiles ready to unleash against Israel.^{11 12}

There are possible prophetic implications to all of this. There is coming a day when Israel will be unleashed on its enemies by the God of the Universe. Scripture seems to point to a general Middle East war with Israel in conflict

with all of her closest neighbors. Obadiah 1:10 gives the reason for a coming destruction of the Palestinians. **“For violence against your brother Jacob”** (Israel). Psalm 83:4-8 gives the gruesome details. **“Come,” they say, “let us destroy them as a nation, that the name of Israel be remembered no more.” With one mind they plot together; they form an alliance against you- the tents of Edom and the Ishmaelites, of Moab and the Hagrites, Gebal, Ammon and Amalek, Philistia, with the people of Tyre. Even Assyria has joined them to lend strength to the descendants of Lot. Selah”** (Psalm 83:4-8) **“Let us destroy them as a nation”**, sounds very much like Iran’s October 2005 call to “wipe Israel from the face of the earth”, or the clause in the Palestinian Charter that denies Israel its existence. The Scripture is very specific. Edom refers to Jordan. The **Ishmaelites** are Saudi Arabia and Egypt. **“Moab** again is Jordan. The **Hagrites”** refers to the Egyptians and possibly other North African peoples. **Ammon** yet once more refers to Jordan, **Philistia** is the Palestinians, **Tyre** is in Lebanon. The war that is forming has been prophesied in detail by the Scriptures. Isaiah 17:1 tells us, **“Behold, Damascus will cease from being a city”**. Jeremiah writes of that city that “all the men of war shall be cut off in that day”. (Jeremiah 49:26) So what could cause Israel to unleash its nuclear arsenal against its neighbors? I would offer that it would be a chemical or biological attack against the Israeli populace. WMDs in the hands of terrorists, just raises the ante in this crusade of hatred against the Jews, and brings closer the day of God’s judgment.

And then there’s Iran. The game there is changing. Even the American intelligence community, - (which at the end of the Bush administration was pooh poohing Israeli estimates that Tehran is on the verge of getting a homegrown nuclear capability), - now says that the Iranians are on the verge of a “dangerous and destabilizing possible breakout capacity”.¹³ The Americans are pushing for another round of sanctions against the regime in Tehran but the Russians and Chinese are balking at the prospect. In fact, Russian actions speak louder than words. It was reported that Israel’s Mossad intelligence agency discovered that a Russian ship was being loaded with missiles headed for Iran, - managed to recruit a hapless criminal gang to hijack the vessel and then publicly tipped off Moscow, forcing Russia to save face, - while ‘rescuing’ the vessel. That stopped the anti-aircraft missiles from reaching Iran, - where they would protect nuclear facilities against a potential Israeli attack, - while at the same time allowing Moscow to save face in the process.¹⁴ Brilliant! Brilliant!!

In the meantime Israel has been quietly preparing to take care of business...itself...if it has to. And an air strike to solve the problem may soon be on the horizon. [Perhaps, - with American approval, - even as part of a quid pro quo for the establishment of a Palestinian state.] Chairman of the US Joint Chiefs, Admiral Michael Mullen, admits, “The window between a strike on Iran and their getting nuclear weapons is a pretty narrow window”. But in the view of many, - including Micah Zenko writing in the LA Times, - even if the US does not approve, - Israel may be forced to act anyway. Iranian nukes present a threat to Israel’s very existence.¹⁵ And Iran’s Ahmadinejad has on more than one occasion called for Israel’s utter destruction. (Now Venezuelan strong man Hugo Chavez is offering to ‘replicate Iran’s key nuclear installation’, as part of an anti-Washington axis along with Iran and North Korea.¹⁶) Prime Minister Netanyahu and the Israeli Cabinet met recently to review what they see as a four-pronged combined threat from the likes of Iran, Hezbollah (Lebanon), Syria and Hamas (the Palestinians in Gaza).¹⁷

UN PUSHING NEW WORLD CURRENCY

A UN panel on Trade and Development believes that our current global monetary system is broken and recommends the replacement of the dollar. The present system, they believe, is what’s responsible for our current financial mess. So they want to replace what we’ve got with “an artificial currency” to reduce deficits and increase stability. (*Isn’t the dollar an artificial currency anyway?*) So they want to turn the globe’s economy over to the Central banks! (*Won’t that be lovely?*) Specifically they envision worldwide control by “a multilateral institution such as the International Monetary Fund”.¹⁸ [*Oh good! I was hoping the IMF would end up with even more power! Maybe the Bildebergs could get involved, - and the Rosthschilds, - and the Rockfellers!!*]
