### AGENDA !!!

*Everybody's got one. We're going to take a quick look at what the current administration in Washington is saying – and what they're doing – just where we may be headed – and what that might mean in the big scheme of things. With that said, let's get one thing clear. This is not a Democrat or Republican thing. The Powers That Be have long had an agenda in place and it is only now playing out using the current power structure to attain certain ends. It has operated however, behind the scenes in every modern presidency, all the time bringing us closer to the moral values and political / social architecture that will characterize the New Order and the Age of Antichrist.*

**HEALTH CARE** – The biggest question remains: 'Just what's in the bill?'. A few things we do know for certain. Obamacare is certainly a major step toward a fully-socialized single-payer health plan. Many of its biggest supporters, - including the President, - have admitted that. Some members of Congress have said that they wanted it to spell the end of the big health insurers. As Congressman Ron Paul points out, if healthcare is to be considered a human 'right' then "it must be produced by the labor of other people, meaning theft and coercion by government." Look for costs to rise, care to get worse and long waits for even life-sustaining treatments. Shortages and hence a form of rationing will be the norm.<sup>1</sup> Supporters and opponents alike know that something like 'death panels' are on the way. As one analyst put it on ABC's Roundtable, "Death panels *would* save money." And most of that saving would be achieved by withholding care from those in the last days of their lives....applying sort of a cost / benefit analysis.<sup>2</sup>

There are some other things we know about the bill. It will require 16,000 new IRS agents to enforce its provisions at an estimated cost of \$1 billion per year in salaries alone.<sup>3</sup> In addition it gives the government the power to draft health professionals into its service in times of national emergency.<sup>4</sup> And – on the surface, it is patently unconstitutional. The Federal Government is assuming powers which the Constitution clearly does not grant. These include requiring individuals to purchase health care insurance, requiring states to raise taxes and requiring states to spend those tax revenues in ways directed by Washington.<sup>5</sup>

There is even language in the legislation that requires the establishment of a national data base tracking medical devices – including implantable microchips. While it does not – [as some internet wonks have alleged] – call for mandatory implementation of the general population; it does however serve as a necessary first step that could in the future be taken to that end. Another creation of the law is the creation of a Reserve Medical Corps wherein the Federal government would be empowered to draft medical personnel for service in emergencies. This could explain one of the more cryptic speeches of Obama's campaign for the presidency when he called for a massive "civilian" force dedicated to national security. That connection has remained both troubling and undefined ever since. Here's what he said at the time. "We cannot continue to rely on our military in order to achieve the national security objectives that we've set. We've got to have a civilian national security force that's just as powerful, just as strong, just as well-funded." This is a project that seems to politicize national service and break down the walls that have always separated the sitting government from the military. (The current budget stands in excess of \$500 billion.)<sup>6 7 8</sup>

**AMNESTY FOR ILLEGAL IMMIGRANTS** – President Obama is wasting no time in advancing that agenda, promising to “fix our broken immigration system” rather than our porous borders. Taking voting trends into consideration, this would add millions of voters to the Democratic rolls. It would also add perhaps 11 million illegals to the health care system. And make no mistake, this is all part of the ongoing plan in operation over at least three administrations now, to affect a North American Union between the US, Canada and Mexico.<sup>9</sup>

**VOTES FOR FELONS** – That’s the next brilliant idea coming from the Left. Legislation was introduced back in January and of course New York’s Senator Chuck Schumer is one of its most vocal supporters. This again would bolster voter support for a socialist far-left agenda.<sup>10</sup>

**A VERY GAY AGENDA** – Washington is quickly moving to get rid of the Don’t Ask Don’t Tell rule and have gays serve openly in the military.<sup>11</sup>

**CAP AND TRADE** – Disguised as a Climate Bill the Cap and Trade legislation would – if passed – cost the American public up to \$200 billion per year, significantly raise energy costs and – as a result – change our way of life. Bipartisan efforts are now emerging to push it through.<sup>12 13</sup>

**A CYCLING WE WILL GO** – Transportation Secretary Ray LaHood has a plan that would definitely effect the way we live. He announced: “This is the end of favoring motorized transportation at the expense of non-motorized.” He wants to go to a plan that would see walking and cycling as a means of connecting with mass transit, as the primary modes of transport. In 2009 he talked about one government initiative as “an effort to make driving more tortuous and to coerce people out of their cars.”<sup>14</sup> *Really! I’m, not making this up!*

**GOVERNMENT RUN MEDIA...JUST LIKE THE SOVIETS** – That’s what one Rutgers professor and FCC advisor is proposing. It is all to be part of a program already being openly pushed called the National Broadband Plan that would see Washington taking over the internet. Professor Ellen Goodman is calling for using tax dollars to set up “public media” to – in the words of Kurt Nimmo of Infowars – “serve as a ‘filter’ and a ‘megaphone’” to ...filter out, I suppose all of that pesky alternative media that has surfaced of late. Yes, it would target the “information gaps”, and provide, in Goodman’s words, the “narrative content necessary to involve the entire population in democratic decision making.” After all, she goes on, information is plentiful, but “wisdom and knowledge are hard won.”<sup>15</sup> [*That’s just more arrogance than I can stomach without vomiting!*] It is just this kind of thinking that saw Homeland Security Secretary Janet Napolitano characterize Christian pro-lifer’s, 2<sup>nd</sup> Amendment advocates, Iraqi Vets, and anyone who supports the Constitution – as domestic terrorists.

The direction we are heading is clear. We are moving toward a fully thought-controlled state where our rights will be defined as originating from the government. It is the very opposite of the ethic upon which this nation was founded. That’s the real agenda! We have convoluted our national purpose. We are headed 180 degrees away from our original purpose as a nation. Here’s Scripture on the matter. **“Woe to those who call evil good and good evil, who put darkness for light and light for darkness, who put bitter for sweet and sweet for bitter. Woe to those who are wise in their own eyes and clever in their own sight.”** (Isaiah 5:20-21) (NIV)

## **CONSPIRACIES & REALITIES – PART VI**

*As New Age /Occult forces are working to bring forth the New Age Christ, their ‘spirit guides’ (demons) are even giving them revelations regarding the coming rapture of the Church. [Full credit must be given for much of the research in this installment to David Bay of Cutting Edge Ministries. His writings serve as the original source that led me to any follow up research I engaged in. Please see footnotes for details.]*

### **RAPTURE STORIES**

**“The coming of the lawless one is according to the working of Satan, with all power, signs, and lying wonders”**  
(2Thessalonians 2:9)

Though a great many Catholics may not have heard of it and a significant number of other Christians may doubt, - the Rapture is a concept that is well accepted in New Age circles. The problem there is that the spirit guides seem to be spreading a bit of disinformation about its true nature. Bill Lambert, for instance, whose 1991 conference we've been quoting; - talks of some form of 'evacuation' of a significant portion of the earth's population around the time of the rise of the New Age Messiah, or Lord Matreya. Lambert is not alone in insisting that the coming of the New Age Christ will be accompanied by the spiriting away of many millions of human beings. He described three groups of people on earth when this messiah comes: those that would embrace him, - those not sure, - and those that could never accept the New Order. These will, in his words "elect to leave for another room". These people, he went on, "would leave this dimension". So his spirit guides were telling him. This will all happen, says he, - shortly after the appearance of the Antichrist.<sup>16</sup>

This is a common theme among New Age writers. UN diplomat Robert Muller weighed in on the matter, saying that those unable to accept the coming 'paradigm shift', will have themselves, "...parked in a special corral of the universe for having been retarding forces, true aberrations in the evolution and ascent of humanity".<sup>17</sup> [*I can just feel the love there.*] Barbara Marx Hubbard, calls it a "...time of selection [when] ...self-centered humanity will become extinct".<sup>18</sup> Those resisting the New Christ will, according to another New Age conference, be removed from this earthly dimension - so the Christ will not have to deal with their 'collective aura' and negative energy. Ruth Montgomery, through her demonically inspired 'automatic writing', claims "millions will pass into the spirit".<sup>19</sup> The Guiding Spirits of the New Age know something is up, and are preparing their adherents for the disappearance of millions of Christians which they know is coming. 1 Thessalonians 4:16-17 clearly lays out what is coming. **"For the Lord Himself will descend from heaven with a shout, with the voice of an archangel, and with the trumpet of God. And the dead in Christ will rise first. Then we who are alive and remain shall be caught up together with them in the clouds to meet the Lord in the air. And thus we shall always be with the Lord"**

### The Why Of It

So while some in the New Age Movement are waiting for those pesky Christians to be spiritually removed, ("those who will never accept" the christ), - others of a more scientific or occultic bent are eager to cooperate in creating the New Age. Harkening all the way back to our discussions on Genesis 6: The rebellion of that age was a combination of the human and the demonic. The Nephilim were the offspring of the **"daughters of men"** and the **"sons of god"**, - or Satan's host of Fallen Angels. So too, will the culmination of this rebellion be in one sense a joint venture between the Devil and Man. Revelation tells us an *Unholy Trinity* will rule the earth in that day. Just as God is Father, Son and Holy Spirit; - Satan will set up an evil imitative counterpart of Beast, Antichrist and False Prophet; - the demonic and the human.

Remember that the New Age goal is to destroy True Christianity and replace it with a One World Religion. Paul warns us that indeed a great apostasy will occur first, implying that that is what will create the conditions necessary for the rise of the Antichrist. **"That day shall not come, except there come a falling away first, and that man of sin be revealed, the son of perdition"**. (Second Thessalonians 2:3) Any event that made the Christian community of genuine believers, fear that they had been "left behind", would surely shake the faith of many. Despair and confusion would reign. In addition, a "False Rapture" might lend credence to Liberal / non-literal Christianity with its ecumenical tendencies and its attendant rejection of many of the foundational doctrines of the faith; such as the Divinity of Jesus, the Virgin Birth, and the exclusivity of Salvation through Christ's sacrifice on the Cross, etc. Considering the chaotic state the world would be in, that event would surely move many nominal-Christians toward accepting the global religion of the Antichrist.

Would such an event be possible to pull off? We need only return to Ivan Amato's July / August 2000 article in MIT's *Technology Review* magazine, entitled *Lying With Pixels*, to see just how it could. Mr. Amato describes how, "Deleting people or objects from live video, or inserting prerecorded people or objects into live scenes, is only the beginning of the deceptions becoming possible".<sup>20</sup> To remove an object, a computer is used to store background information from the scene, and then, in laymen's terms, realign the frames. The computer determines the foreground and immediate background of the object, finally filling the space of the object with matching pixels until the object is "suddenly gone". It

all takes place in the twinkling of an eye, - less than one-thirtieth of a second, to be exact. And it can be applied in real time. This is not just a theory. It was demonstrated at an international conference on Satellite Imagery, when skater Katerina Witt was made to seamlessly disappear. Not even a shadow was visible. The audience of the world's elite was stunned. What this all means is that video images could be beamed as live newscasts showing people spontaneously disappearing or being *raptured*. Presented as "news reports", the video images would be amazingly convincing.

Consider again the 'Holographic Allah' we talked about; - the one that the US Army wanted to project over Baghdad. Technologically it was not a particularly big deal. Now one way to create holographs, is by projecting laser beams into space and then bouncing them off of orbiting satellites. They could easily be used to create the images of the world's various "messiahs" required by New Age "prophecy". According to Constance Cumbey, in her *Hidden Dangers of the Rainbow*, they could also be used "...in such a manner as to appear that flames are coming from the sky", suggesting the fulfillment of Revelation 13:13. It is possible that one single image could be produced that would be able to be viewed by up to one-third of the world's population. There is even technology "...to make the image speak in the language of the areas to which it is beamed". New Ager David Spangler, has admitted that laser projectors have been installed on the roof of St. John the Divine Episcopal Cathedral, in New York; - a home of New Age thought and practice.<sup>21</sup> Other New Age sources have 'predicted' a worldwide vision where the New Age Christ will appear across the world, - speaking to each area in its predominant native tongue. Such "**signs and wonders**" could threaten to "**seduce, if it were possible, even the elect**". (Mark 13:22)

Where again does this technological "power" come from? Cutting Edge's David Bay is among many that argue that it is Satanic power, allowed by God. Look again at Revelation 13:14. "**Because of the signs he was given power to do on behalf of the first beast, he deceived the inhabitants of the earth.**" The word "**power**" used here and in many of the prophetic passages of Revelation is the Greek "exousia". It means "ability", "competency" "mastery over" and "superhuman". By its very definition it suggests what may be happening here. The Illuminist / New World Order / New Age forces have been given a "superhuman ability or competency", - a scientific knowledge with which to deceive the "**inhabitants of the earth**". David Bay points out that Vogel, the developer of the Xerox copier, claimed to have received his invention in a psychic dream. Even Edison himself was a committed Theosophist. There is that connection between some scientific knowledge and the occult.<sup>22</sup> It is not a stretch of prophecy that they intend to use the most advanced scientific knowledge: Glorifying Man through the use of Mankind's greatest purported glory, - science. That is exactly the plan that Lemesurier revealed in the Illuminati blueprint, *The Armageddon Script*.

### Spiritual Technology

So that explains the scientific dimension: But there is also a spiritual dimension to the New Age plan. Whatever the 'technology', it will all be done in cooperation with the 'forces of the universe'. New Age writer Kay Wheeler (or Ozmana), reveals information that she *channeled* from her spirit guide (*personal demon*) who claims to come from the "Seventh Celestial Plane of Life" (*pits of hell*). They tell us that Mother Earth, (a living feeling being), is unhappy, troubled. So what the Bible describes as the coming Tribulation and the New Age calls earth changes, will all result because: "The Mother is cleansing". And as good little...earth children(?)...you "can help your Mother cleanse in such a way that does not destroy all life on this planet". [*There's the case for and the link to radical environmentalism. I digress.*] And here's the justification and the reason for the coming removal of those who will not accept this New Order. "Many of these beings have appointments to leave at this time. Earth's population needs to be decreased to bring forth the necessary changes upon this planet to move into the fourth dimension.... She has moved into this energy pattern, and those who plan to stay must be of this vibration."<sup>23</sup>

You see to the truly occult mind, it is all about spiritual technology. Which perhaps brings us to the occult explanation of why and how we may be living in the time that we are in. Way back in 1918, Satanist Aleister Crowley decided he wanted to create a "dimensional vortex" that would break the barrier or serve as sort of a bridge or portal between the physical and spiritual realms. So he performed a ritual called Alamantrah Working through which he believed that he summoned a demonic presence called Lam. One interesting thing about Lam, is that in drawings he made, this being

closely resembled what later became known to the UFO crowd as “Alien Greys”. (*There again is the connection between demons and aliens.*)

About 30 years later Scientology founder L Ron Hubbard and rocket scientist Jack Parsons performed a similar ritual they called *Babalon Working*. This time they sought, - in the words of Tom Horn, - the very “spirit of Babylon, the archetypal divine feminine to pass through the portal and to incarnate itself within a human being”. Many Satanists and high degree Masons believe that they were successful and that “she—the whore of Babylon—walks the earth today”.<sup>24</sup> If indeed it were true; - She / It would be a product of human and demonic cooperation; - a spiritual expression of the New Age itself.
