ECONOMICS & REVOLUTION – PART I

This has been a series that I've held on the back burner for awhile now – at least the concept. In fact it is a combination of two ideas that have been percolating: The first being the question of whether economic collapse is around the corner and if so, is it intentional on the part of the PTB. Secondly, it intends to examine the nature of what seems to be an emerging revolutionary spirit; - in this country, the West and the world at large. As such it is an ongoing project and one that will be responsive to new information coming out...or being discovered. Let's take this adventure together.

INTRODUCING THE GAME

“The ten horns you saw are ten kings who have not yet received a kingdom, but who for one hour will receive authority as kings along with the beast. They have one purpose and will give their power and authority to the beast.” (Revelation 17:12-13) (NIV)

Here are some of the headlines of the not to distant past. *“China reduced its holdings in American debt to drop to second place behind Japan.”* They no longer seem so keen to support America's debt-driven economy.¹ [By the way, the Fed Reserve is actually America's biggest creditor, making that entity and the international banking families that control that – ‘The Boss of Us’. But I digress...for now.] Looking at the fact that the US will have to refinance \$2 trillion in short term debt over the next year, Porter Stansberry announced *“The Bankruptcy of the United States is now certain.”* It's either that – or the printing press. And foreigners control almost half of our debts right now – and it's likely to get worse.² The plans of the Obama administration will add \$10 trillion to the national debt over the next ten years – of which \$5.6 trillion will be interest costs. It's expected that the US will have debt to GDP ratio in that period of time – enough to set off a massive fiscal crisis.³ One analyst warns of *“The Collapse of Capitalism.”* The use of “fiat money” (not backed by gold) will always take the same path, leading to “collapse...chaos...and eventually war.” The welfare state will be one of its first casualties as will military spending.⁴ Even the New York Times agrees that *“Deficits may alter US politics, global power.”* This could spell the end of America as the world's superpower and even put an end to “new domestic initiatives” for the foreseeable future. Obama and a liberal Congress are unlikely to do the heavy lifting of cutting entitlements to break down the deficit.⁵ The International Forecaster warns, **“Potential For Fed To Hyper-Inflate”**. According to them, there's at least \$1.5 trillion that needs to be removed from the system this year. The Forecaster alleges that certain banks have already been told to take steps to prepare for the introduction of a new currency. In the crisis, public services will be cut leading to “increased crime and social problems.”⁶ Giordano Bruno warns that an “incredible downturn” is on its way, *“...Indicating Impending Market Chaos.”* The Chinese are preparing by buying up gold – (and other tangible assets) – as if they were going out of style. Since 2008 he's been predicting the wholesale collapse of the US economy would be set in motion in 2010.⁷ Our friends at LEAP 20/20 see it as a choice between inflation, high taxes or default. It will result in a global “very great depression.”⁸ And futurist Gerald Celente concurs. They all see the collapse coming sometime this year. Celente goes on to point out that the US economy is no longer capitalist, - but is fast evolving into a form of fascism.⁹ He is not alone in that conclusion.

So what's the deal? Is our economy in the process of collapse? Is this fact being used to transform the very socio-economic architecture of the United States and other Western nations to one of increased government control over the lives and finances of businesses and ordinary citizens alike? The answers are: We'll explain, - probably, - & - it sure looks like it. In fact it is very likely worse than that. The whole thing is a part of a process in which the PTB are manipulating events to gather even more control and usher in the dread New World Order.

We are living in a time of massive transformation- just like President Obama promised. And yes, there is a conspiracy behind it. But it is not some single boardroom with decisions being made over cigar smoke and whiskey. It is something more sinister than that. But what is unfolding is being planned behind the scenes; at climate conferences and economic summits. And the strings for these are being pulled by those above governments and political parties – though leaders of parties and governments are often part of the process. Its real players include the richest and most powerful. Many are open champions of One World Government, or as they prefer now, the softer term, Global Governance. Some of these are secret, committed Satanists who know exactly what they are doing. Others are 'useful tools' with varying degrees of knowledge and ignorance about *The Plan*.

But it is not a monolith. There are competing visions of this coming New World Order, with unity only being achieved – perhaps – in the spiritual realm – at the level of the very dark **“powers and principalities”** behind it. The Council on Foreign Relations (CFR), and its' elder British cousin, the Royal Institute of International Affairs (RIIA) set the global political tone. The Club of Rome, the Bilderbergs, the UN, EU, Trilateral Commission, the international banking families, the various central banks like the Federal Reserve, the International Monetary Fund (IMF), the Bank of International Settlements (BIS), and even the Vatican are among the players. Yet while they put forces in motion to influence transformative events – we must always remember that they do not control the outcomes. That provenance is reserved for God Himself!! And when we look at developments today, we can clearly see their hand; just as we see God's; - in both the fulfillment and near-fulfillment of Biblical prophecy.

These all want to take us to a New World Order. In their diversity they are using many disparate and sometimes even opposing forces to get us there. Some have their own unique vision. Other groups cooperate or are controlled by higher powers. In the end they will find that they are mere tools in a supernatural plan aimed at man's enslavement. Even Islam is a tool here. It awaits its' Mahdi and the set up of a worldwide Caliphate to rule the globe. The PTB have signaled that this *'Religion of Peace'* will be used to gain control of Jerusalem, the city that the PTB consider the spiritual center of the world. They intend to crush Islam and destroy the monotheistic religions, restoring in their place nothing less than Babylonian paganism. Along the way they intend – (through the Mason's using Orthodox Judaism) – to restore the Temple in Jerusalem. This will set the stage for their One World Religion. Right now Islam is being used to panic the populations of the West into surrendering increasing control to the governments just to be rid of the terror. That is the ultimate, satanic purpose of the terror. It is at that point – with rights willingly surrendered that the warning of 1Thessalonians 5:3 can become operative. **“While people are saying, “There is peace and security,” then sudden destruction will come upon them as labor pains come upon a pregnant woman, and they will not escape.”** (ESV)

Global radicals and the coming revolution will be yet another tool of the Illuminati / PTB. A semi-obscure book written by The Invisible Committee is making its way across Europe and now has crossed over into the US. It calls for armed revolt to overthrow the government. As one review describes it thus: “The goal is to collapse the economy in order to bring about radical shifts in governance.”¹⁰ In that way it sounds more than a bit familiar. We can see that revolution beginning to rear its ugly head in Greece, right now, - manifesting itself as a union-driven, violent, populist movement. 60,000 Greeks took to the streets in March, leading to violent clashes with police.¹¹ This very type of economic unrest is what has been warned of, and prepared for by Western governments, including our own. Troops have been put in place and legalities have been attended to. In our own country this has come in the form of executive orders by the past several administrations that have prepared the way for the national military to take over the

functions of local government and legal enforcement with the imposition of a form of martial law. Therefore the economic hardship that drives the crisis, along with their resulting civil unrest and the resultant suppression will all serve as tool of the PTB in achieving their ends. That is just what will drive the notion of “**peace and safety.**”

Let’s look a bit at the tool that is the economic / financial crisis. Watch how it all works: a slight of hand on a grand scale. Economists now openly admit that the Great Depression was brought on and worsened by the policies of the Federal Reserve. It was a decade-long event engineered by the actions of the very operatives of the PTB – the Federal Reserve; - owned and operated by the international banking cartel. It is not surprising that their fingerprints are on this one too. Even where there were massive paper losses, the global bankers managed to make out by funneling billions of taxpayer dollars to themselves and acquiring a larger share of the various markets resulting. Case in point: While the world economy was reeling, the Fed itself made \$45 billion in profits in 2009.¹² Goldman Sachs, - another arm of the PTB – reported record profits in the same period.¹³ No matter how you cut it, the international banking families and their allies grabbed a larger share of global market control. That’s because, despite the number, the assets never really disappear. It was all eerily plotted by the British / South African magnate, Cecil Rhodes. Upon his death, the New York Times published “Mr Rhodes Ideal of Anglo-Saxon Greatness”. In the story it detailed his work of founding a “Wealthy Secret Society” dedicated to capturing the wealth of the entire globe for the Anglo-Saxon race. Their goal would be to establish world peace under the leadership of a “British – American Federation.”¹⁴

Thus so many of the moves we’ve seen taken since the financial crisis hit in September of 2008 – (and before) – have left an indelible impression of some event engineered for the purpose of both increasing government control on the national level – (here & elsewhere); - and uniting those cooperating nations in bowing to increased international cooperation and ultimately – control. Now we’ve seen that politicians and statesmen around the world have been talking for some time now about the coming New World Order. The notion of a global currency has been on the mind of our economists. And President Obama has openly called for the transformation of America. In just his short time in office, Mr Obama and his Congress of sycophants has managed to make great strides toward nationalizing the American economy, demonizing constitutionalists who disagree with the agenda, fomenting unrest and creating the architecture for the imposition of martial law. And all of this – taken together – is what serves as the launch point for this series on the interconnectedness between economics and revolution.

What we are seeing now is the remaking of our world. The economy is but a symptom, a vehicle to their ends. That end is intended to be the establishment of a World Government under – in their own words now – the leadership of a strongman many of the PTB openly refer to as the New Age Christ. Referring to the Scriptures, Christians know that the plans of the One-Worlders will succeed – for a time – and that their leader will be the man called Antichrist. In what follows, we’ll look at that relationship between a manipulated economy and the use of the coming revolutionary events. We will see some interesting connections between this current phenomenon and the revolutions of the past. We’ll examine the relationship of both to the driving force of Satanism. And as best we can, we will gauge just where we are on that road today. *Remember: This is not knowledge for knowledge sake. It is all but a call to repentance!*

THERE REALLY IS A TERROR WAR

“You shall not be afraid of the terror by night, Nor of the arrow that flies by day, Nor of the pestilence that walks in darkness, Nor of the destruction that lays waste at noonday” (Psalm 91:5-6)

It’s not perhaps the way it has been portrayed; - a War on Terror. Terror is an act or a state, not an entity that can be suppressed and conquered. But terror is a very real tool; - of both the fundamentalist elements of the Religion of Peace and the PTB that maneuver events through the actions of others.

Terror showed its ugly head on the streets of Manhattan, and it was only through the intervention of God that great damage and loss of life did not occur. Oh I know doubters will point to the purely human factors in finding and defusing the situation. However there is no doubt in my mind that God had a hand in the events. It was Saturday night, May 1st that a bomb was discovered – smoking – in Time’s Square. Police immediately diffused. The first reaction of the New York City police was to announce that there was no immediate evidence of a link to the Taliban. But by Sunday, Homeland Security Chief Secretary Napolitano was characterizing it as a “potential terrorist attack.” Almost as if on cue, the Pakistani Taliban claimed responsibility for the future attack. In addition, radical author Younnus Abdullah Muhammad, from RevolutionMuslim.Com, told WABC Radio that we could ‘absolutely’ expect more violence right in New York City. The vocal extremist had earlier warned the producers of TV’s South Park, that they need be ‘afraid for their lives’ for the offense of insulting Mohammed. It warned that they would “probably wind up like Theo Van Gogh; - murdered, that is. To the *Religion of Peace*, an insult is a capital offense. That sentiment was confirmed by a local TV channel that someone placed a call to 911 at 4AM Sunday warning of another imminent explosion and saying that the Time Square bomb was only intended as a diversion for a massive explosion to come. And the South Park connection was interesting enough for police to investigate. The failed bomb was set to blow near the offices of Viacom, who owns South Park. ^{15 16 17 18 19 20}

As it stands, the foreign terror connection seems to be more solid than originally thought by some. Police picked up Pakistan-born, US citizen Faisal Shahzad, - connected with the SUV used in the failed attack - at JFK Airport as he was trying to board a plane and flee the country for Dubai. He had recently come back from a 5-month trip to Pakistan.²¹ Eight others were arrested in Pakistan related to the attack. The design of the bomb itself mimicked that of a terrorist manual put out by al-Qaeda. The same design was used in an attempted London attack back in 2007. Despite all this, the administration held to the position that this was an international terror plot. ^{22 23 24} In some ways they are right. So what we are seeing then is a new form of terror. It is not that al-Qaeda and the like is dead; - it’s that it has been augmented, if not superseded by an era when terrorism will begin with the individual. The Islamic-terror ideology has become a personal mindset. The motivation, therefore falls to the individual, as the primary agent – aided and abetted, however by the likes of BIG TERROR, if you will, - in this case the Taliban of Pakistan. If the terror organizations were difficult to go after, this new paradigm will present even more difficult problems to solve. We are entering an era of chaotic and personal terror.

ISRAEL STUFF

The United States continues its drive toward the creation of a Palestinian State. To the Obama administration this seems to be part of a comprehensive Middle East peace plan with many prophetic overtones. Here’s just some of the stuff that’s dribbled out lately.

- **Nuke Free Zone** – According to the Wall Street Journal, the White House is talking with the Egyptians to set up a nuclear-free zone in the Middle East. They are using the nuclear ambitions of Syria and Iran to build the case for Israel to give up their nuclear arsenal. Of course, as former US ambassador Bolton points out: Such a proposal would only be targeting Israel. Their arsenal is part of the overwhelming military and technological superiority that has enabled the Jewish state to survive since its inception. If Israel would ever give up her nukes she would be entirely dependent on some outside power for protection against overwhelming odds. It is the former UN diplomat’s contention that the President would like to see Israel dispose of its nuclear capability. ^{25 26} Daniel tells us that a day is coming when Israel will accept the empty promises of protection offered by the man of sin; the Antichrist . This action will provide the climax of the Tribulation and set the stage for Christ’s return. **“He will confirm a covenant with many for one 'seven.' In the middle of the 'seven' he will put an end to sacrifice and offering. And on a wing of the temple he will set up an abomination that causes desolation, until the end that is decreed is poured out on him.”** (Daniel 9:27) (NIV)

- **Did He Say That ?** – According to at least one Egyptian official, President Obama has promised Palestinian Chief Abbas that the US was committed to the establishment of Palestine within two years.²⁷ Israel is concerned that the Palestinians with the support of the UN and the international community, may just unilaterally declare the existence of a Palestinian state. Here’s what the Scripture says, however. **“They shall call its nobles to the kingdom, But none shall be there, and all its princes shall be nothing.”** (Isaiah 34:12)
- **World Summit For Mideast Peace** – President Obama has been informing European leaders that if there is no progress by year’s end he will convene a global summit to get the job done. The four powers known as the Quartet; - the US, Russia, the EU and the UN would sponsor the talks. According to Haaretz, “several European leaders have vowed that the EU would support any peace plan proposed by Washington.”²⁸ The Quartet was formed with only one purpose in mind; to divide the land of Israel. Is this then what the Prophet Zechariah was referring to when he wrote: **“Then I raised my eyes and looked, and there were four horns. And I said to the angel who talked with me, ‘What are these?’ So he answered me, ‘These are the horns that have scattered Judah, Israel, and Jerusalem.’”** (Zechariah 1:18-19) As David Bay of Cutting Edge points out, verse 21 goes on to shed more light on what’s in store. **“And I said, ‘What are these coming to do?’ So he said, ‘These are the horns that scattered Judah, so that no one could lift up his head; but the craftsmen are coming to terrify them, to cast out the horns of the nations that lifted up their horn against the land of Judah to scatter it.’”**²⁹
